MAN SHOT AND HIS WIFE BEATEN BY MEXICAN SUNDAY

Mr. and Mrs. J. A. Rudder, Living South of Town, Narrowly Escape Death At Hands Of Enraged Assailant—No Trace Of Mexican Found—Posse Scours Surrounding Country.

J. A. Rudder, living about twelve miles south of town, was shot through the right arm and side and in the head as well, and his wife severely beaten over the head and on the hands by a Mexican youth named Chatse who visited their home about noon Sunday. Both were in a serious condition when brought to Vernon late Sunday, but are much better today. Several shots were fired at D. Massie, a son of Mrs. Rudder, but he escaped uninjured.

A posse was immediately organized, and combed the surrounding country for the assailant, but up to noon today he had not been captured. The extremely rough terrain makes a man hunt exceedingly difficult, and additional caution is being exercised by those in the pursuit inasmuch as the Mexican is armed with a 20-25 Winchester rifle and a revolver.

Dispute Over Debt.

The attack occasioned through dispute over a debt, occurred Sunday after the Mexican had concealed himself in the house while Mr. and Mrs. Rudder were busy attending to chores in the yard. According to the story told by Mr. Rudder, his wife started back into the house while he went on some errand about the place.

When Mrs. Rudder attempted to open the door, it was held by someone from within, and then suddenly jerked ajar. As she half fell into the room she was struck over the head by a two-pound hammer in the hands of the Mexican who had concealed himself behind the door. The stricken woman threw up her hands to ward off more impending blows, and as a consequence the thumb on her left hand was broken, and her fingers battered to a pulp. She has four terrible, jagged wounds on the top of her head.

Shoots Rescuer.

Upon hearing his wife's cries, Mr. Rudder started for the house and before he reached the door the Mexican suddenly appeared and aimed the gun at his breast. The farmer whirled and received the shot in his arm and it passed through into his side. Another shot entered the back of his head.

It was at this juncture that D. Massie, a son of Mrs. Rudder, appeared on the scene after having been in Vernon during the morning. In the meantime Mr. Rudder had slipped behind a door in the room where his wife lay stricken, and continued to out-manuever the Mexican who was evidently bent on destruction.

Commanded To Tie Wounded Man.

Young Massie was commanded to tie his stepfather securely in order that the gunman might shoot him with more certainty. When the youth, who is about 20 years old, demurred he was informed that "not a damn soul will be left alive." He continued to edge across the room toward his stepfather who instructed him to break for the door and summon help.

With a bound Massie was out in the open and running in the direction of some hunters he had met when coming to the house. The Mexican gave pursuit and is said to have fired two shots at the fleeing boy. He then returned to the house but Mr. Rudder had barricaded himself, his wife, and 15 year old stepson in one of the rooms.

Hunters To Rescue.

Meanwhile Leonard George and W. T. Butler of Vernon, who had been hunting nearby were summoned by young Massie who informed them that a Mexican was "killing Ma and Pa." The two nimrods advanced upon the house but were evidently sighted by the Mexican who suddenly vanished.

Mr. and Mrs. Rudder and son were induced to admit the rescuers, and word was immediately sent to Vernon for medical assistance and officers. A posse was then organized and, armed with a variety of weapons and on horseback and afoot, nearly 400 men commenced a search of the country. The Mexican was never sighted.

Were On Outing.

According to Leonard George, who drives a service car in Vernon, and W. T. Butler, barber at Freeman's Shop, they were on an outing with their fam-

STOWAWAYS BY THE SCORE DEPORTED

The good ship Cretic, which recently docked in Boston, seemed to have been a haven for stowaways. On that trip no less than a score of passengers not on the manifest found the sailing and the fare to their taste. When they reached port, however, the Federal authorities barred their entrance, and they were ordered deported. The photo shows the stowaways, guarded, just before they were deported from Boston to their home port.

SCHOOL LEAGUE SCHEDULE MADE

COMMITTEE SETS DATES AND PLACES FOR FINALS IN COUNTY CONTESTS.

The executive committee of the Wilbarger County Interscholastic League met Saturday and scheduled times and places for the final contests during the coming year. These will all be conducted in Vernon.

Finals in basketball, it is announced, will be held not later than February 4. Finals in debate, declamation, essay writing, and spelling will be conducted March 25. The county track and field meet will take place April 1. Details concerning each contest will be announced by the respective directors.

County Directors. Entries to the various county contests are made to the following: Athletic—J. A. Morrow, Vernon; Debate—J. M. Horne, Tolbert; Declamation—Miss Thelma Smith, Harrod; Essay writing—Miss Vera Flack, Vernon; Spelling—W. W. Snodgrass, Vernon; J. N. Fulcher, principal of the high school, is director-general of this county.

Schools desiring to participate in the interscholastic contests must send membership fees at once to E. D. Shurter at Austin. From this source they can be provided with spelling lists, rules, and other literature.

lies in company with Jack Ellis and family Sunday when the shooting occurred. Mr. George owns the farm upon which Rudder lives.

Before reaching the picnic grounds, Mr. George and Mr. Butler, alighted from the truck and cut across the pasture in search of game while their families proceeded to the destination. D. Massie was met coming across the field toward his home.

About fifteen minutes later, according to Mr. George, he and his companion heard the shouts of the boy who came running to them and begging for a gun. The party immediately hurried to the house and found the stricken couple as related before.

Controversy Over Crop.

According to Mr. Rudder, the Mexican worked a cotton crop on halves with him this season and in addition, owed him \$100. The entire yield was two bales, and the Mexican demanded payment. When reminded of his debt he refused to be pacified, and went to work for a neighboring farmer, returning at intervals to contest the issue with his former employer.

According to Rudder, his Winchester disappeared from his home last Tuesday, and it was this weapon with which he was shot. His revolver was taken Sunday before the attack occurred.

Chatse is described as being about 22 years old, smooth shaven, short, a eye resembling a cancer under his left eye, and speaks very broken English.

FIGHTERS ARRANGE VARIED PROGRAM FOR ARMISTICE DAY

Orrosion To Be Elaborately Observed In Vernon—Meeting On Court House Square In Morning and United Church Services—Two Minute Universal Prayer—Athletic Program and Dance.

Every ex-soldier, sailor, or marine in Wilbarger county and from other localities as well is invited to be in Vernon Friday, November 11, for the observance of Armistice Day. At 11 a. m. the former fighters will assemble on the west side of the court house, and there will be band music and speaking. Civilian clothes will be in perfect order, those in charge of the program have announced.

No one is barred on the basis of term of service, it has been announced. It is merely hoped to fittingly observe the occasion in keeping with the proclamation of the President of the United States. At 11:30 the memorial services of the day will be held at the Baptist tabernacle. Vernon churches will unite in staging this observance.

Two Minute Prayer

At 12 o'clock noon the fire siren will sound one shrill blast and persons everywhere are expected to stand in meditation and prayer for two minutes. Men will remove their hats and all faces will be turned towards the East. At the expiration of two minutes bugles will sound "attention." This procedure will also be observed nationally. The services at the tabernacle will be concluded with the bugles sounding taps.

The nation's unknown warrior will be laid to rest in Arlington cemetery at 12 o'clock noon Friday. This ceremony will be attended by the highest dignitaries of the country.

Stores To Close.

All businesses with exception of drug stores and cafes, it is announced will be closed in Vernon Friday. In the afternoon at the Elks Club a smoker will be conducted for all ex-service men. There will be a battle royal between dinky fighters, and wrestling and boxing bouts of merit.

In the evening there will be a ball for the ex-soldiers, sailors, and marines. A nominal charge of one dollar per couple will be made, the proceeds going toward equipping club and library rooms for former service men. All buglers are requested to furnish their services during the morning Friday. Instruments will be furnished to those who do not possess them.

Dallas Sales Price Is Regular Here.

In an advertisement carried in the Dallas News of Sunday is the announcement from a firm in that city that a certain line of shoes are being offered at sale for \$13.50. This is heralded as providing a saving of \$2 to \$4. It is significant that the same shoes have been offered for sale in Vernon several months at \$13.50, regular price.

Citizens Told To Watch Step.

Warnings to motorists and pedestrians have been painted on the bases of all lamp posts in the city. Those on foot are cautioned against "jay walking" while drivers are warned to refrain from speeding or opening cut-outs.

REV. W. T. ROUSE TO RESIGN FEB. 1

BAPTIST MINISTER ANNOUNCES RETIREMENT FROM PULPIT LAST SUNDAY

Rev. W. T. Rouse, Baptist minister, will resign from his pulpit here February 1, 1922, according to an announcement made Sunday to his congregation. Mr. Rouse has been in Vernon since June 1, 1917, coming here from Memphis. He is uncertain concerning plans after February 1.

Mr. Rouse has taken a prominent part in local church circles since coming here, and has been chairman of the Vernon Pastors' Conference for two years. During its ministrations there have been 501 additions to the church, he has married 118 couples, and officiated at 114 funerals.

J. O. Rouse of the Vernon Abstract Co. is a brother of Rev. W. T. Rouse, and T. L. Rouse, editor of the Vernon Times, is a son.

STUDENTS HOLD PEP MEETING.

Cheers And Songs Resound In Business District Of Vernon Friday Afternoon.

High school students conducted a "pep" meeting Friday afternoon after the movement had been sponsored by the local Lions Club. Four members of this organization received the sanction of Superintendent E. L. Dohoney in their attempt to instill into the student body enthusiasm for the football game with Memphis Saturday, and accordingly every pupil was enlisted in a parade which formed about 3:30 in the afternoon at the building.

Cheers and songs featured the meetings on three downtown corners, and there was a snake dance down Main street. The students then disbanded at the square.

The Lions' Club is endeavoring to assist the high school athletic department in having larger crowds at the football games.

Pie Supper At White City Pays.

Fifty dollars were realized Friday night from the pie supper given at White City. Proceeds were devoted to tuning the piano at the school and purchasing athletic equipment. Following the supper a literary society was organized with Miss Mary Anna Covert president and Miss Beatrice Hughes secretary. Mrs. Luther White offered a very pleasing piano solo for the musical part of the program Friday.

Armistice Day Services Friday.

Armistice Day services will be conducted Friday, November 11, at the Baptist Church by all of the churches in the city in joint session, according to a decision reached last week-end by the Vernon Pastors' Association. These will commence at 11:30 in the morning and last but a short while. A program committee was appointed to arrange details for the services.

FARMERS DISPLAY INTEREST TOWARD WEEVIL MENACE

Court Room Well Filled Saturday By Audience Which Sees Evidence of Pest Clearly Placed Before It—Talks Made by Those Possessing Experience—Meeting Scheduled For Saturday.

Much interest was manifested Saturday at a meeting conducted by farmers in the district court room for the purpose of discussing means of combating the boll weevil, and a permanent organization was effected to wage battle against the pest. A. M. Hiatt was made president, T. H. Shive secretary, and together with three others, J. H. Pettit, Lon Byars, and J. T. Oates, form a central committee.

The court room was more than half filled with farmers, and before the meeting was called to order those present made a close examination of the boll weevil placed on the court room table. The pest ranged in size from the grub to the full grown insect, and removed all doubt concerning the discussion as to whether or not the weevil actually existed in Wilbarger county.

Weevil Destroyed Crop.

A farmer, Mr. Hardage, was called upon for the first account of his experiences with the boll weevil. He informed the audience that he lived in Indian territory during 1904, '05, and '06, and that prior to the coming of the weevil cotton averaged one-half to one and one-quarter bales to the acre. The weevil was first noticed in 1904. Soon thereafter production dropped to an average of seven bales to thirty acres, and later to one bale. Finally there was no cotton left to gather.

A cleanup campaign was then inaugurated by the Farmers' Union, burning out every fence corner and all places where trash had accumulated was carried out, and in 1907, a wet year, the pest was not noticed. In 1908, another wet year, there were no weevils, and it finally disappeared.

Cleanup Campaign Helped.

F. H. Littleton, living west of town, followed Mr. Hardage with a graphic account of the depredations committed by the cotton destroyer. Littleton declared that he possesses seven or eight years experience with the pest, and that he first encountered its intrusions in Ellis county. A vigorous cleanup campaign there accomplished much good, he stated, and stock was put into the fields to graze.

In Denton county, where Mr. Littleton later moved, the cotton crop was a complete failure. Land in that vicinity is heavily timbered and as a consequence it is practically impossible to successfully attack the weevil.

Continuous dragging of cotton fields was advocated as a preventive measure by Mr. Littleton. Such a process in the summer, he asserted, causes the squares, which are breeding places for the weevil, to drop off and the hot sun kills the larvae. The best time to fight the weevil is at the present time, Mr. Littleton said in closing.

Weevils In Trash Heap.

J. C. Adams of Hood county, at present employed at the Farmers Gin in Vernon, was the next speaker. Mr. Adams exhibited a bottle of weevils he had gathered from the trash pile at the gin which he characterized as "being alive with them."

"Persons say, 'Do you think we have weevils in Wilbarger county?'" said Mr. Adams, "and I say there is no think to it. I know we have. They ate me out of my farm forty miles west of Fort Worth, and I am certain concerning their identity."

Destroys Entire Crop.

"Years ago there were eighteen gins in our county, and their output each season was about 30,000 bales. Now there are three gins which handle less than 1,000 bales a year. Last year I did not gather a scrap of cotton from 100 acres, this year I got about 1,000 pounds of lint from the same land."

"To those persons who do not believe we have them here, I want to say that they are traveling over the trash pile at the gin like ants in a hill. But they are not hard to fight in this country because there is no timber. The weevil does his work in wet weather."

"We believe all have noticed the tremendous number of people coming through here this year by wagon train."

ISSUES WARNING****L. G. HAWKINS SEES DANGER IN
BUYING SEED FROM UN-
KNOWN SOURCES.**

Warning farmers against buying cotton seed from unauthentic sources was sent out today by L. G. Hawkins, county chairman of the United Campaign for Better Agriculture. The discovery of the pink boll worm in Ellis county near Ennis last week was the cause of Mr. Hawkins' warning.

"Cotton seed for planting purposes is being sold in Wilbarger county by agents from no one knows where," Mr. Hawkins stated. "Unless one knows absolutely where this cotton seed comes from, it is risky business to buy it."

Thirteen Counties Infected.

"I see in the Dallas News of last Sunday that the pink boll worm has been found in Ellis county. Seed in that vicinity was shipped to oil mills in Ellis county from New Mexico. There are thirteen counties in Texas which are infested with pink boll worms. The boll weevil has ruined the cotton crop of most of East and Central Texas."

As a result the cotton oil mills in that section are having to ship in seed from anywhere they can get it. It is possible that cotton seed from infested areas may be shipped to oil mills in many other counties.

Worm Is Distinctive.

The pink boll worm is entirely different from the boll weevil. The first is a worm which is carried in the seed. The weevil is an insect which punctures squares and bolls. Not being a timbered country, we can control the boll weevil by blowing the stalks under, or uprooting and burning them, burning fence rows, burning trash, or by pasturing cotton fields.

The pink boll worm is a different thing. It eats up bolls, squares, leaves and seed. It often damages a crop 70 per cent. Be careful that you do not buy pink boll worm.

May McAvoy takes the part of a French orphan who is adopted into the family of Philip Lawton, a wealthy man. Through love of his thoroughbred he neglects his wife, which permits a family friend to usurp the husband's place in her affections. Jeanne develops a romance with Jerry Hayes, the stable manager. But clouds scatter the sunshine because it is her duty to protect the wife and take the responsibility. The picture develops several novel twists and carries considerable dramatic force.

Wednesday and Thursday—Conway Tearle in "Bucking the Tiger"

The interest centers around Ritchie MacDonald, the role assumed by Tearle, who has reached the "end of his rope." He and his four companions, Graham, Hillyer, Walsh and the Comit are in desperate straits and MacDonald suggests in order to raise \$100,000 one of them be insured for that amount, and when he dies at the end of a year, the rest can collect. They draw cards and MacDonald agrees to sacrifice his life.

The various means used to raise the money to pay the premium on the policy, a love affair that springs up between MacDonald and a girl of the camp, the kidnapping of the girl in a blinding snow storm, and the unusual turn of affairs before the year has ended, are but a few of the high points of this interesting story. It is replete with action and suspense and contains much excellent photography.

LOCAL HIGH SCHOOL STAGES PAGEANT

PROGRAM THURSDAY WILL COM-MEMORATE FIRST ANGLO-SAXON SETTLEMENT

A pageant commemorating the first Anglo-Saxon settlement in Texas in 1821 by Stephen F. Austin will be staged in the Vernon high school auditorium Thursday night, November 10. The program will commence at 7:45. Proceeds from the sale of tickets will be used to provide every school in town with a library.

Admission will be twenty-five cents for children and fifty cents for adults. Tickets will be given to the various parent-teachers associations in the city, and each organization will be permitted to keep the funds resulting from their respective sales.

Fostered by Rotary.

The pageant that will be presented represents a movement being fostered by the Rotary clubs of the state to commemorate the centennial of the first white settlement in Texas. The title of the pageant is "Texas Under Six Flags," and it has been compiled by Edwin R. Bentley. There are six episodes and a grand finale.

The stage in the auditorium has been enlarged, and appropriate costumes obtained for the cast. Professor Paul Goetze's orchestra will play during the performance, and the high school chorus will sing.

The episodes presented will be the following: (1) French Discovery and Possession; (2) Spanish Exploration and Mission Building; (3) Mexican Reign; (4) Colonization by Stephen F. Austin and (5) The Texas Revolution; (6) Republic of Texas; (7) Under the Confederacy; (8) Under the United States.

The cast in the pageant embodies more than 125 persons. The more important parts will be taken as follows:

La Salle—Maurice Tront; Stephen F. Austin—George Colter; Sam Houston—Elton Cook; Santa Anna—Walter McElroy; Texas—Miss Hazel Vaughn; Liberty—Miss Opal Williams; Justice—Miss Frances Greover; Immortality—Miss Mary Hope Westbrook; Uncle Sam—Preston McCombs.

WILL BACK HEALTH CRUSADE.

Shive School Parent-Teachers Association To Assist State Worker Here.

No program was rendered Friday at a meeting of the Shive School Parent-Teachers Association on account of other business before the organization. The resignation of Mrs. L. E. Piper as treasurer was accepted, and Mrs. C. S. Rutledge elected to the office. A committee consisting of Mesdames Della Housels, F. E. Murchison, J. E. Lutz, and Miss Floy Tackler was appointed to draft a constitution and by-laws.

A partial report from the finance committee stated that thirty-five dollars have been collected toward the library fund, and about fifteen more are promised. A communication from Miss Pearl Hyer, field worker for the Texas Public Health Association, was read in which co-operation was asked for the staging of a modern health crusade in the public schools of Vernon. This co-operation was unanimously granted, and Miss Sheila Porter and Mrs. Raleigh Hooper were appointed assistants to Miss Hyer in conducting the work here.

Members of the association are requested to watch for the date and place for the next meeting as business of especial importance will be transacted then.

Red Cross To Stage Drive.

The same councilmen in Wilbarger county who serve for the newly organized Wilbarger County Welfare Association will also be asked to serve in the same capacity for the Red Cross. The Red Cross will stage a drive for members and funds in conjunction with the Association campaign November 11 to 24. Practically every cent raised this year will be kept in this county for the public health nurse or any charity work deemed worthy. Mrs. Bertha Ross is Roll Call Director of Wilbarger county.

Wins Awards At Cotton Palace.

Third cockerell and third pullet were won at the Cotton Palace by Adam Dinges, local breeder, with Buff Orpington specimens. The awards were gained against strenuous competition, according to word received here. A communication from the fair management complimented Mr. Dinges on his unusually fine chickens.

There was a singing at the home of W. H. VanHurst Sunday night.

Mrs. W. E. Turner of Odell has been ill for the past few days but is better now.

Archie Humphrey and Miss Rosie Bell Morgan were married last Tuesday night in Vernon. The bride is the daughter of Mrs. A. E. Morgan of Vernon; her husband the son of Mrs. Lillie Humphrey of Odell. The young couple once lived in Haulk Hill community

and have many friends here to congratulate them.

Mrs. T. H. Green gave the young folks a party Saturday night.

There was a party at the home of Mrs. T. H. Green last Saturday. It was for the young people.

Buys Nash Roadster.

A Nash 4 roadster was sold last week to Aubrey Lockett of Lockett community.

Stork Visit Tolbert Couple.

Mr. and Mrs. Lee Cantrell of Tolbert are the proud parents of a girl born to them November 3. Mother and child are doing well.

Mr. and Mrs. Clyde Smith of Wichita Falls were in Vernon Sunday. Miss Geraldine Parker and Miss Helen Hiatt accompanied them home later in the day.

DEMENTED MAN LOSES LIFE

Victim of Railroad Train At Memphis Believed To Have Been Vernon Prisoner.

An account carried in a State paper last Sunday announced the death at Memphis of a man who is said to have jumped in front of a moving train. A description of the unfortunate victim and communication with officers at Memphis has convinced county officials that the man was H. Schwartz, demented, and arrested here October 23.

Schwartz was detained here for some time while efforts were made to place him in a State asylum for the insane. Due to crowded conditions, however, this opportunity was denied and a communication from the man's relatives indicated that he was at the county's disposal. Accordingly, unable to place the man anywhere for permanent detention, county officials last week released him.

When arrested here absolutely naked, Schwartz asserted his wife is a stenographer at Bryan.

A life belt to go around the case containing his famous Stradivarius violin was the first thought of Jan Kubelik, when the Osgood mill boat, on which he was a passenger, collided with a Norwegian sailing vessel in a fog off the Goodwin Sands.

Mr. and Mrs. Chandler Caraway left by automobile for their home in Shawnee, Okla., Saturday after a visit with their mother, Mrs. B. J. Parker.

The condition of Mrs. Lela Albright, who has been critically ill at her home on West Texas street, is not so satisfactory today.

All union barber shops will be closed Friday, November 11, on account of Armistice Day. 86-11c

MUNICIPAL ELECTRICITY

The proposal of Vernon's city com-
mission to enlarge its light plant and
to add equipment for making ice, so
that the community and surrounding
territory may be served from a mun-
icipal plant seems to strike a popular
chord. Undoubtedly, in the minds of
many this would be a wise move.

Municipal ownership of public util-
ities is a question as old as modern
government. Economists long claimed
that public ownership and operation of
those enterprises which were compli-
cated in operation—such as street rail-
ways, for example—offered obstacles
much greater than are afforded by the
operation of water and electric light
plants. The distribution of these is a
relatively simple matter.

Vernon has been making electricity
for its own use for some time, appar-
ently at a profit. It is claimed that
the water works yields the municipality
a profit. There seems reason to infer,
then, that electricity might be supplied
the entire community at a saving to the
consumer or a profit to the city, or
both.

Nor are there any outstanding ob-
stacles apparent in the way of the man-
ufacture of ice at a price that will
meet with public approval.

VERNON AN INDIAN VILLAGE?

Despite the fact that Vernon has
more street paving, a better water
supply, and more attractive lawns than
any other municipality of like size in
the entire Southwest, in at least one
particular Vernon strangely resembles
the Indian village which one might
have found on these prairies half a
century ago. The town is over-run
with dogs.

Canine of every size and description
may be found—from the almost micro-
scopic variety of lap dog to the bound-
ing airdale. Some of the animals are
valuable, and some are doubtless only
a fad.

While the dog is "man's best friend,"
there are undoubtedly too many of
them roving the streets of Vernon. It
is not at all likely now that an epi-
demic of hydrophobia will infest them
—not before warm weather again—but
should such be the case it would be-
come very serious.

Wherever dogs are kept for a pur-
pose they are worth while. They seem
likely, however, to become a public
nuisance in Vernon.

GET THE HABIT, PLEASE.

Children are taught to say "please,"
"thank you" and "you are welcome,"
but when they get older they shake off
the traces of their early youth and for-
get these phrases of fundamental po-
liteuess.

Many children have been spanked
for not saying "please," many have
foregone the pleasure of having some-
things because they were stubborn and
refused to say "please" when they

knew that that would bring the desired
object to them.

In our hurry and rush through life
we forget, some of us all the time, most
of us some of the time, to be polite and
gentlemanly. To say "please" requires
but a moment, but what a pleasure it
lends to the transaction! It makes hu-
manity less harsh and brutal. The
energy required and friendliness is
trivial, really negligible. All that is
necessary is the habit.

Get the habit and make the world a
little less sharp. Say please. It'll
please the world and please you.—The
University Missourian.

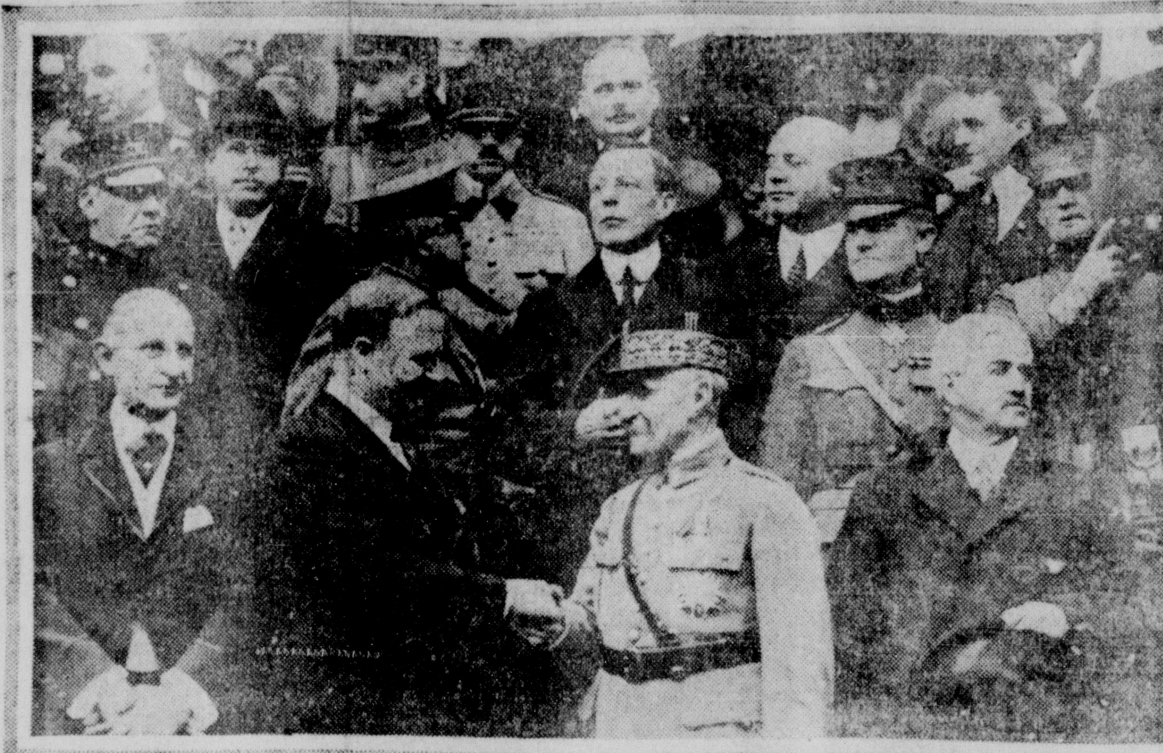

BANKS ARE ADVERTISING

Fort Worth banks are spending
money individually in institutional ad-
vertising and in addition are co-operat-
ing in the expenditure of \$12,000 for a
year in a joint advertising of functions
that a bank may perform for an indi-
vidual and for a community as a whole.
Time was when a bank to advertise
would have brought on as big a shock
as for a doctor to use display space to
tell of himself; it was unethical or
regarded so. But the time, happily, is
past, and they are now bringing them-
selves and their functions before the
public thru real advertising.

Bankers know their business and are
prone to think the fundamentals of it
are perfectly understood by others—an
idea that is rather general among most
professionals. But the modern banks
are functioning in many ways that
would be of advantage to the general
public and to the banks as well. If the
general public understood them; and
that is what the bankers of this day
and time are doing in the use of mer-
chandising methods that they should
be so committed but because their suc-
cess is indissolubly bound in the wel-
fare and growth of their territories.

And in passing, it might be well to
suggest that the banks would be able
to do much more than they are able
to do if every dollar in the community
were put into the banks where it would
work in the unbuilding of that com-
munity's business and general prosper-
ity. The unbanked dollar, the hoarded
dollar, is not worth much to the com-
munity; the dollar in the bank is equiv-
alent to five dollars in the credit of

THOUSANDS GREET FOCH BY LAND AND SEA

Marshal Foch, Generalissimo of the Allied Armies, upon his arrival in New York received a welcome such as has not been experienced since the Armistice Days of 1918. The thunderous din in the harbor, along the waterfront and along the line of march of the famed old fighter never has been equalled. Cannon on Governor's Island boomed out a deafening salute, trans-Atlantic steamships vied with tugs and ferryboats with ear-splitting blasts of their sirens, and hundreds of river and harbor craft of every description sent out a shrill ovation that added to the gigantic roar. The city, State and Nation formally greeted the celebrated Marshal when he stepped foot on American shores. The photograph shows Mayor Hylan shaking hands with Marshal Foch. On the right is Governor Miller and on the left Rodman Wanamaker.

ONE REASON FOR FIGHTING

One very important reason for fight-
ing the boll weevil is the effect an
invasion of the pest would have on
property values. Certainly the loss of
a cotton crop would be burden enough
—even if the insect might be curbed
and reasonably good yields secured in
future years. And this is possible.

But let it once be known that Wil-
barger county had become infested with
the boll weevil, and farmers wanting

to invest their savings either in a home
or with an idea of selling at a profit
some time later would avoid this sec-
tion as a plague spot.

A yield this year, in many cases of
more than a bale to an acre, will stamp
Wilbarger county as an especially fa-
vored agricultural section. It will be
made known practically all over Texas,
and will tend to attract thither a
multitude of home-seekers.

All of this means increased land
values, more farmers, a more prosper-
ous community. For these reasons we
must fight back the boll weevil. To be
effective the fight should be started
today.

The Story of Our States

By JONATHAN BRACE
XV.—KENTUCKY

THE kinship
of Ken-
tucky and
Virginia is
that of parent
and child.
From Virginia
came most of
the settlers of the western state,
and with them these pioneers
brought Virginia institutions
and ideals. It was not until
1750 that the first authentic
journey was made by a white
man into central parts of the
region afterwards called Ken-
tucky.

Further explorations showed
that this territory held two im-
portant attractions for settlers.
The first was the great fertility
of what was called the Blue
Grass region. The so-called
blue grass, from which this
state is nicknamed the "Blue
Grass State" is in no wise pec-
uliar to Kentucky.

The second inducement for
settlers was the fact that there
were no Indians living in this
region. It was later found that
many roving bands of savages
crossed the Ohio from the north
and sorely harassed the early
colonists until Clark's expedi-
tions into Ohio and Indiana
checked their invasions. In fact,
the name Kentucky is probably
derived from the Iroquois word
kentka-ke, meaning "hunting
land." Another interpretation
is "dark and bloody ground,"
but this is doubtless incorrect.

The main highways of travel
at that time were Daniel
Boone's "Wilderness Road"
through Cumberland Gap and
down the Ohio. Hardy pioneers
poured into this new territory
in such numbers that in 1792,
with the permission of Virginia,
Kentucky was admitted to the
Union as the fifteenth state with
an area of 40,598 square miles.
Kentucky has thirteen electoral
votes for president. The re-
markable physical condition of
its population is shown in a re-
port of the volunteers in the
Civil war. This gave their av-
erage height as nearly an inch
taller than the New England
troops and with a correspond-
ingly greater girth of chest.

VERNON SMOTHERS MEMPHIS 67 TO 0 IN GAME SATURDAY

Locals Are Able To Gain At Will Through Line and Around Ends—Visitors Threaten Only At Close of First Half—Coach Morrow's Line Holds Well—Small Makes 70-Yard Run.

Running the ends, plunging the line, forward passing, in short,—utilizing practically every phase or open and straight football,—Vernon swamped Memphis high school's representation here at the fair grounds Saturday 67 to 0. The visitors at no stage of the game possessed even a chance, and were hopelessly outclassed from the start. Although the locals performed in creditable style, their victory was gained over a team possessing little or no knowledge of even the fundamentals of the game.

Vernon's backfield gained practically at will, Small, Hollar, and Bramblett uniting in long end runs that completely circled the Memphis ends. Apparently gaining confidence through their obvious superiority over the visitors, the backs also ran better interference than any seen in previous games here this season. Several beautiful runs were made by the Vernon ball huggers, one by Bramblett in the third quarter, when he whirled off several Memphis tacklers for a touchdown, featuring. Small made a touchdown after intercepting a pass on his own 30-yard line.

Line Holds Well.

Vernon's line was practically impregnable. Time and again the visiting backs crumpled in their smashing attacks before the sturdy resistance of the local forwards. Robinson, Morris, and Baird showed to particular advantage in the line.

On the whole, however, Vernon's tackling was extremely ragged. Two and three players were required to stop a majority of the opposing runners, and there was an abundance of high tackling and even clean misses. Memphis employed a short forward pass over the line to excellent advantage, and Vernon was practically powerless to thwart this style of attack.

C. Lemons, visiting captain and full back, received an injury soon after the game commenced that forced him to retire. His loss clearly added to the demoralization of his teammates.

First Quarter.

At 3:30 Memphis kicked off, a short roller to Thompson. Vernon attempted two line bucks unsuccessfully, and Small passed to Bramblett which was narrowly missed. Bramblett made fifteen yards around right end, and on the next play Vernon was penalized five yards for offside.

Small reeled off ten yards around left end, and Bramblett made eight more a few moments later around the other wing.

Time was taken out for the Memphis captain, Lemons, who left the game.

Vernon was on the ten yard line. Parr made a good gain through the line, and Hollar carried the ball over. Bramblett kicked goal. Score: Vernon 7—Memphis 0.

Vernon Blocks Punt.

Parr kicked off to the 10-yard line. Vernon was penalized five yards for offside. Memphis made eight yards around right end. Vernon blocked a punt but Memphis recovered. Vernon

blocked another punt but this time gained possession of the ball. It was the locals' ball on the 30-yard line.

Small made 20 yards around left end. Parr smashed through for a touchdown. Bramblett kicked goal. Score: Vernon 14—Memphis 0.

Parr kicked off to the 12-yard line, but the ball was returned 20 yards. Vernon players tackling poorly. Local forwards smeared several line plunges in quick succession. It was Vernon's ball on downs.

Vernon was offside, and also suffered a 15 yard penalty for holding. Small made a good pass to Hollar who caught the ball but dropped it when tackled. The first quarter ended before the play was commenced.

Score: Vernon 14—Memphis 0.

Second Quarter.

Parr kicked to the goal line, the ball bounding past the visiting safeties. Memphis kicked from behind the line to the 20-yard line. Bramblett circled right end for 15 yards. Small went over for a touchdown. Bramblett kicked goal.

Score: Vernon 21—Memphis 0.

Parr kicked off to the 15-yard line. Memphis punted to Bramblett who returned 30 yards. A pass, Bramblett to Hollar, netted 20 yards. Small sped around left end behind good interference for another touchdown. Bramblett kicked goal.

Score: Vernon 28—Memphis 0.

Recovers Onside Kick.

Parr kicked a short one about 18 yards and Baird recovered it. Bramblett shot around right end for 20 yards, performing some good open field punning. Vernon opened a battering line attack that sent Hollar over for a touchdown. Bramblett kicked goal.

Score: Vernon 35—Memphis 0.

Hollar kicked off to the 15-yard line. Memphis completed a short forward pass. A line attack failed. Memphis executed a forward pass from a spread play that netted 30 yards. A moment later Hollar interfered with a Memphis receiver on a forward pass, and the ball was given to Memphis on the line where the foul occurred. It was the first time Memphis even threatened the local goal. The whistle blew for the first half with Memphis in possession of the ball on Vernon's 5-yard line.

Score: Vernon 35—Memphis 0.

Vernon students executed a snake dance on the field between halves.

Second Half.

Parr kicked to the 3-yard line. Memphis opened up an aerial attack which failed and the ball went over on downs. Small completed a pretty pass to Bourland who dropped the ball with no one between him and the goal line. Bramblett flipped a 25-yard pass to Hollar who made a beautiful catch. It was Vernon's ball on the 3-yard line. Small went over for an apparent touchdown. The play was not allowed, however, on the basis that the ball was not over

the line, and it went over to the other team on downs.

Memphis punted and the kick was blocked. Vernon recovered on the 5-yard line. Bramblett executed a pretty run around right end for a touchdown, whirling off opposing tacklers. Bramblett kicked goal.

Score: Vernon 42—Memphis 0.

Parr kicked off 20 yards. Small intercepted a pass after a few plays and raced 70 yards down the sidelines for a touchdown. Bramblett kicked goal.

Score: Vernon 49—Memphis 0.

Memphis Passes Effective.

Parr kicked off 40 yards. Memphis executed a pass over the line for the seventh consecutive time and first down. Small intercepted a pass and returned the ball 20 yards. The third quarter ended with the ball on Memphis' 35-yard line.

At the opening of the fourth quarter, Small passed 20 yards to Hollar.

Vernon lost the ball on downs, the Memphis line showing a surprising resistance. Memphis kicked low to Hollar. Bramblett tossed the ball 15 yards to Small who went over for a touchdown. Bramblett missed goal.

Score: Vernon 55—Memphis 0.

Baird kicked off to the 10-yard line. Memphis lost the ball on downs. Small made 20 yards around left end. With one minute to play, Vernon had the goal line to make in ten yards. Vernon was penalized 5 yards for offside. Memphis intercepted a pass on its 1-yard line. Memphis punted to Hollar who made a good return. Small raced around left end for a touchdown. Baird missed goal.

Score: Vernon 61—Memphis 0.

Score In Closing Seconds.

With only seconds of the game remaining, Baird kicked to the 10-yard line. Memphis lost the ball on downs. It was Vernon's ball on the 40-yard line. Bramblett flipped a pass to

Small for 30 yards, and the fleet Vernon captain negotiated the remaining distance for a touchdown. Baird missed goal.

Score: Vernon 67—Memphis 0.

Baird kicked off to the 15-yard line. Memphis advanced the ball to its own 40-yard line and the game was over.

A shirt tail parade down Main street in the evening celebrated the victory for Vernon students.

PREMIUM LIST FOR POULTRY RAISERS

BOOK SOON TO BE DISTRIBUTED
OVER COUNTY BY NEW
ORGANIZATION

An attractive premium list will be circulated in the near future by the Wilbarger County Poultry Association among all parties who are prospective exhibitors at the poultry show here in January, according to an announcement of the secretary of the organization. This book will contain practical information to poultry raisers, and will also embody the name of every standard breeder in the county, his address, and the variety of chickens he raises. Breeders are expected to preserve this book from one year to another.

Merchants will be visited and solicited for advertising. More than 500 copies of the premium list will be judiciously distributed.

Working Over County.

H. D. Hockersmith, secretary of the Association is visiting ladies' clubs over the county for the purpose of stimulating interest. He is being ably assisted in this work by the county home demonstration agent.

Details of the chicken show are being worked out, and careful plans are being laid to make it the best exhibit ever staged in this county.

Those sponsoring the show are exerting every effort to stimulate an interest in an industry felt to be a permanent benefit to the county. There is no fund upon which to draw in order to meet the expenses of the show, and for that reason it must be self-sustaining.

ENTERTAIN FRIENDS WITH 12.

Hill Crest Dance Canceled.

Hill Crest Country Club has abandoned plans for a dance at the club Friday evening, November 11. This action was taken in order to permit the utilization of home music by the American Legion, which is planning an evening of pleasure.

Christmas Box For Miss Groves.

Friends of Miss Blanche Groves, missionary to China, who desire to have a part in the Christmas box that will be sent the Vernon young lady are requested to bring their gifts to the Baptist Church Monday, November 14, at 3 p. m. Presents should preferably be light and easy to send, it has been suggested. Wearing apparel is considered most appropriate.

Groceries

Are moving in and out of my store and business is good.

I do not sell one article at or below wholesale cost and make up the profit on some other article whose value is not so well known. Every article bears its little profit.

Good goods, good service and good treatment are three things you get at my store.

An keeping grapefruit, oranges, apples, bananas, fresh grapes and head lettuce practically all of the time now. Last week I sold some twenty-five pounds of good country butter, and while I do not quite supply the demand on this article, what I do sell is good.

\$40,000 Stock of Dry Goods, Hats, Shoes, Clothing, Ladies' Ready-to-Wear

In fact everything carried in a General Dry Goods Store will be thrown on the market, absolutely regardless of price. In many instances at a fraction of cost to manufacture. This is Freeman Bros. and the Insurance Company's loss and your gain. We will have an abundance of help to wait on the immense crowds at this great sale

SALE STARTS TUESDAY MORNING, NOV. 8

at 9 O'clock and continues to Saturday, Nov. 26, providing the stock lasts that long

We have just succeeded in getting a settlement with the Insurance Company, which was very satisfactory and the people of this and surrounding counties are going to derive the benefit of all of it. This is a chance of a life time to many who have never attended a FIRE AND WATER SALE to buy all their winter needs before the present stock is exhausted.

YOU WILL HAVE TO HURRY! Do not put it off, or this opportunity will slip from you. We are expecting great crowds and eager buyers, coming at a time when no one hardly has bought their Fall and Winter needs. Merchandise will melt away like snow in the Summer time.

NOTHING RESERVED. OUR ENTIRE STOCK MUST GO NO EXCHANGE, NO REFUNDS. All Sales MUST BE FINAL

for the reason we are making a tremendous sacrifice, and we want to take our loss and forget about it.

DIRECTORS TOLD OF BOLL WEEVIL

HOOD COUNTY RESIDENT GIVES
GRAPHIC ACCOUNT OF
DREAD PEST

Menace from the boll weevil in Wilbarger county formed the principal topic Friday at a meeting of directors of the Vernon Chamber of Commerce. John C. Adams of Hood county, who spoke before the commercial heads, informed them that the production there this season was cut by the weevil from an average yield of 30,000 bales to 14,000 bales. The speaker asserted that Wilbarger county residents do not realize the damage the pest can accomplish.

There are vacant houses everywhere in central Texas, Mr. Adams informed the directors, and the weevil has advanced up the Denver to Clay and Montague counties, where it has ravaged the cotton crops.

Weevil Here, Too.

"The weevil is here, too," the speaker declared, exhibiting a can alive with the insects. "Many persons do not believe these bugs are boll weevils; but they are eating up cotton in this vicinity. I got these weevils from the trash run from one of the gins in Vernon."

When asked concerning effective means of checking the dread pest, Mr. Adams informed the directors that the most acceptable methods entailed cleaning up trash, burning fence rows, destroying old stalks and pasturing cotton field until the old bolls are eaten up.

Endorse Campaign.

Directors at their meeting endorsed the United Campaign for Better Agriculture, which has for its purpose advocating no increase in the 1922 cotton acreage and the promotion of diversified and better farming. The manager of the Chamber was instructed to co-operate with the leaders in this campaign. The commercial body has already aided this campaign by placing its office at the disposal of the Farm Bureau and L. G. Hawkins, county chairman of the campaign.

WHEN THE PAPER DOESN'T COME

My father says the paper he reads ain't put no right. He finds a lot of fault, he does, perusing it all night. He says there ain't a single thing in it worth while to read, and that it doesn't print the kind of stuff the people need. He tosses it aside and says it's strictly on the bum. But you ought to hear him holler when the paper doesn't come.

He reads about the wedding and he snorts like all get out. He reads the social doings with a most decisive shout. He says they make the papers for the women folks alone. He'll read about the parties, and he'll fume and fret and groan. He says of information it doesn't have a crumb.

But you ought to hear him holler when the paper doesn't come. He's always first to grab it and he reads straight clean through. He doesn't miss an item or a word, and that is true. He says they don't know what we want, the darn newspaper guys.

I'm going to take a day sometime and go and put 'em wise. Sometimes it seems as though they must be deaf and blind and dumb. But you ought to hear him holler when the paper doesn't come.

DIAZ PAYS TRIBUTE TO ROOSEVELT'S MEMORY

A tribute of respect and homage from Italy to the memory of Theodore Roosevelt was paid by General Armando Diaz, head of the Italian Army, when he placed a wreath to flowers on the grave of the former President, at Oyster Bay. Accompanied by a party of over one hundred persons, many of whom were in uniform of the American and Italian Military service, General Diaz, displayed a keen emotion at the memory of Roosevelt. He said: "At the tomb of Roosevelt no speech can be made. Only an expression of the deepest homage I bring from my country. During his life he was adored, and at his death he was beloved by everybody." The photo shows General Diaz saluting after placing a wreath on the tomb of Theodore Roosevelt.

Within a radius of twenty miles of New York City's Municipal Building there are more than seven millions of people. More than 50 different tongues are spoken in New York City every day, and there are more than 25 newspapers published in foreign languages. Forty-five per cent of the entire population is foreign-born, and more than 60 per cent is either foreign-born or children of foreign-born parents. There are more Italians in New York than in Rome; there are more Germans than in any other city of the world except Hamburg and Berlin; there are Russians enough in New York City to constitute a city as large as St. Louis; there are twice as many Jews as ever lived in Jerusalem at any one time. The largest Jewish population ever assembled upon earth since the exodus from Egypt is now congested in New York City. It is the largest Negro city in the world, and it is also the largest Irish city in the world. There are 200,000 more Irishmen in New York than there are in Dublin.

FARMERS DISPLAY INTEREST TOWARD WEEVIL MENACE

(Continued from Page 1)

Well, all those folks are from boll weevil country. They are eaten out of their homes."

Is Convinced Of Presence.

Guy R. Jones, county agent, who spoke next, remarked that there has been a question whether or not the boll weevil actually existed here. He stated that the evidence lay before the audience to examine at its pleasure. Personally he said, he is absolutely convinced that the specimens submitted are of the boll weevil.

"Whatever it is," said Mr. Jones, "we know it is eating the cotton. In the southwestern part of the county as well as in the forks of the river and other sections, the depredations of the insect can be clearly seen."

"I have seen the weevil at work in my native state, Georgia. I have seen fine sections wiped out. Concerning the question as to whether or not cold weather affects the pest, I may add that I once saw a boll weevil frozen in a block of ice and left there for twenty-four hours. At the expiration of that time, when the ice had melted the weevil moved about and finally flew away."

"Cotton is practically out of the fields now, and this is the time to put up a fight."

Outlines Life Of Weevil.

Mr. Jones then gave an outline of the life of the weevil. It lays its eggs in the squares, he said, and before the cotton blooms, it lives on the plant. Only one egg is laid in each square, and it is estimated by scientists that the female weevil can lay 140 eggs. Its tremendous multiplication is thus clearly evident.

The leaves of the plant first turn yellow, said Mr. Jones, and then the eggs hatch into a worm. The worm eats out the square and then goes into the pupae stage from which it emerges a boll weevil. Fourteen days are required from the transformation of the egg to the weevil.

As the season progresses, the weevil lays its eggs in the bolls. It passes the winter in the adult stage and gets in cover to protect itself. When these places of refuge are destroyed, the weevil is destroyed at the same time.

Lives On Cotton.

The weevil eats a few other plants, but absolutely cannot be raised anywhere else than in the cotton field, the county agent pointed out. If trash and breeding places are eliminated, the weevil is destroyed as well.

Where possible, land should be turned under, and stalks should be cut while green. Stock pastured in the fields will eat the green stuff.

Mr. Jones concluded his remarks by stating that there is no reason why the weevil cannot do damage in this section. It has laid other localities bare, he said, and can do likewise here. However, efforts to combat it in the fall are the most effective.

County Will Clean Up.

Mr. Jones informed the audience that the county judge had intimated that the commissioners will clean up the roads if the farmers will do the same to their fields. He added that each man should urge his neighbor to cooperate. Cleanup methods will benefit the man employing them, but they are far more worthy if everyone participates.

At the conclusion of Mr. Jones' talk various citizens of Vernon and farmers expressed their views on the situation. Some stalks raised in this county and from which bolls had been eaten off attracted considerable interest from those present.

Officers were then elected, and committees appointed for every community in the county. Those committees will push the cleanup work in their respective districts.

Meeting Here Saturday.

A meeting has been called for all committeemen and farmers for Saturday afternoon, November 12, at 2 o'clock to hear an address from R. R. Reppert of College Station, considered one of the leading entomologists in the State and an authority on boll weevils. The meeting will take place in the district court room.

Following are the officers and committeemen named at last Saturday's meeting, and the pledge that will be circulated throughout Wilbarger county.

GENERAL DIAZ ARRIVES AMID THUNDEROUS DIN.

General Diaz & Colonel Mervyn Buckley

General Armando Diaz, the greatest Italian hero since Garibaldi to visit America was acclaimed by thousands when he arrived in New York. The Italians of New York and vicinity made a holiday of it. Two ferryboats and a fleet of private yachts and tugs, packed to the gunwales with cheering sons and daughters of Italy, were waiting off Quarantine for General Diaz. A flag-waving crowd, conservatively estimated at 150,000, greeted him at the Battery and cheered his triumphal march up Broadway to City Hall, where Mayor Hylan conferred the freedom of the city. The photograph shows the procession moving up Broadway, and General Diaz and Colonel Buckley, who was appointed by the Secretary of War to act as his personal aide.

I hereby agree to join hands with my neighbors in fighting the boll weevil in my community. In so far as possible, I agree to do the following:

1. To uproot, pile and burn stalks.
2. To plow under all cotton land when possible.
3. To turn stock on cotton fields and allow them to eat all late bolls leaves and green stems.
4. To burn all fence rows and places where the weevil can get winter cover.
5. To cut and burn all weeds, and sunflowers in which the weevil spends the winter.
6. To get my neighbors to fight the boll weevil.

Be Steady--but!

It's alright to be steady, but if you are too steady you'll be standing still. It pays to circulate a little—you have to keep a-moving.

Also it is a pretty good plan to keep your money moving—keep it in circulation. If a merchant buys a lot of goods and just puts them on the shelf and leaves them there he won't make much. It's the goods that move that bring the profits. Your money is the same way. Make it move. Keep it turning. Put it in the bank where it can earn you something and keep it turning.

STERS HERALD BETTER SPEECH

GRADE SCHOOL PUPILS COMPETE
FOR MOST ARTISTIC
SPECIMENS

Better English Week, a nation-wide movement, will be observed November 12 and will be appropriately centered in Vernon, according to E. L. Dohoney, city superintendent of schools. In many communities the observance will not be confined merely to schools, although this will be the case in Vernon.

Three prizes have been offered by Superintendent Dohoney to the children of the grade schools submitting the best posters announcing Better English Week. Pupils competing were entered in the third to seventh grades. Each school has selected the best posters from their respective students, and these have been forwarded to the high school where they will be judged by teachers in the English department. Reproductions of well-known pictures will be given as prizes. Some of the posters already submitted are of high merit.

STERILIZE MILK VESSELS.

Milk will keep better and make better products if all pails, strainers, and separator parts are sterilized, says the United States Department of Agriculture. Use live steam for 5 minutes. You can not get live steam, boil all vessels for at least 5 minutes. A steam sterilizer for dairy utensils, which can be made by a local tinsmith, is described in Farmers' Bulletin 748, "Simple Steam Sterilizer for Farm Dairy Utensils." The bulletin may be obtained on application to the department.

OKLAHOMA TEAM TO PLAY HERE FRIDAY

MOUNTAIN VIEW HIGH SCHOOL
WILL FURNISH ARMISTICE
DAY CONTEST.

Vernon high school's football team will clash Friday, November 11, in an Armistice Day contest with the team from Mountain View, Oklahoma. The game is expected to be unusually close inasmuch as Mountain View was defeated earlier in the season by Chickasha 54 to 6, while the latter humbled Vernon 54 to 0.

According to information furnished the Vernon coach by the Chickasha players, Mountain View possesses about the same weight as Vernon but has some exceptionally fast men. Vernon and Mountain View were considered by Chickasha as being about on a par. The game will commence at 3:30, and due to the occasion being a holiday, a large crowd is expected. Vernon's attendance, it has been pointed out, is far below that of many Texas communities in the matter of supporting their respective aggregations on the gridiron.

GOOD PUREBRED BULLS IMPROVE HERDS QUICKLY

With purebred bulls a breeder achieves more in the improvement of his herd in two generations than he can in five with grade bulls, says the United States Department of Agriculture. Department workers have thoroughly studied the subject of building up herds to better milk, butter, and beef production. Better sires may be obtained either by individual purchase or by becoming a member of a bull association. Literature on the latter method can be obtained by writing to the department, and will furnish useful reading during the winter. Full information can also be obtained by consulting your county agent or State agricultural college.

WILL COMMAND WORLD'S

LARGEST PASSENGER SHIP.

The distinction of commanding the world's largest ship, the 56,000-ton Majestic, now nearing completion for the White Star Line, to ply between New York and Southampton, has been conferred on Sir Bertram Hayes, at present commander of the Olympic. Both ships are owned by an American concern, the International Mercantile Marine Company.

The Majestic was built by the Germans, to lead the merchant fleets of the world, and while still unfinished was turned over by them to the Reparations Commission, under the Versailles Treaty. She is 936 feet long, and her interior space is equal to that of 400 eight room suburban houses. Sir Bertram Hayes, a native of Birkenhead, is fifty seven years old and a bachelor. He has many friends in the United States.

MAN SHOT AND HIS WIFE BEATEN BY MEXICAN SUNDAY

Mr. and Mrs. J. A. Rudder, Living South of Town, Narrowly Escape Death At Hands Of Enraged Assailant—No Trace Of Mexican Found—Posse Scours Surrounding Country.

J. A. Rudder, living about twelve miles south of town, was shot through the right arm and side and in the head as well, and his wife severely beaten over the head and on the hands by a Mexican youth named Chaste who visited their home about noon Sunday. Both were in a serious condition when brought to Vernon late Sunday, but are much better today. Several shots were fired at D. Massie, a son of Mrs. Rudder, but he escaped uninjured.

A posse was immediately organized, and combed the surrounding country for the assailant but up to noon today he had not been captured. The extremely rough terrain makes a man hunt exceedingly difficult, and additional caution is being exercised by those in the pursuit inasmuch as the Mexican is armed with a 20-25 Winchester rifle and a revolver.

Dispute Over Debt.
The attack occasioned through dispute over a debt, occurred Sunday after the Mexican had concealed himself in the house while Mr. and Mrs. Rudder were busy attending to chores in the yard. According to the story told by Mr. Rudder, his wife started back into the house while he went on some errand about the place.

When Mrs. Rudder attempted to open the door, it was held by someone from within, and then suddenly jerked ajar. As she half fell into the room she was struck over the head by a two-pound hammer in the hands of the Mexican who had concealed himself behind the door. The stricken woman threw up her hands to ward off more impending blows, and as a consequence the thumb on her left hand was broken, and her fingers battered to a pulp. She has four terrible, jagged wounds on the top of her head.

Shoots Rescuer.
Upon hearing his wife's cries, Mr. Rudder started for the house and before he reached the door the Mexican suddenly appeared and aimed the gun at his breast. The farmer whirled and received the shot in his arm and it passed through into his side. Another shot entered the back of his head.

It was at this juncture that D. Massie, a son of Mrs. Rudder, appeared on the scene after having been in Vernon during the morning. In the meantime Mr. Rudder had slipped behind a door in the room where his wife lay stricken, and continued to out-manuever the Mexican who was evidently bent on destruction.

Commanded To Tie Wounded Man.
Young Massie was commanded to tie his stepfather securely in order that the gunman might shoot him with more certainty. When the youth, who is about 20 years old, demurred he was informed that "not a damn soul will be left alive." He continued to edge across the room toward his stepfather who instructed him to break for the door and summon help.

With a bound Massie was out in the open and running in the direction of some hunters he had met when coming to the house. The Mexican gave pursuit and is said to have fired two shots at the fleeing boy. He then returned to the house but Mr. Rudder had barricaded himself, his wife, and 15 year old stepson in one of the rooms.

Hunters To Rescue.
Meanwhile Leonard George and W. T. Butler of Vernon, who had been hunting nearby were summoned by young Massie who informed them that a Mexican was "killing Ma and Pa." The two nimrods advanced upon the house but were evidently sighted by the Mexican who suddenly vanished.

Mr. and Mrs. Rudder and son were induced to admit the rescuers, and word was immediately sent to Vernon for medical assistance and officers. A posse was then organized and, armed with a variety of weapons and on horseback and afoot, nearly 400 men commenced a search of the country. The Mexican was never sighted.

Were On Outing.
According to Leonard George, who drives a service car in Vernon, and W. T. Butler, barber at Freeman's Shop, they were on an outing with their fam-

STOWAWAYS BY THE SCORE DEPORTED

The good ship Cretic, which recently docked in Boston, seemed to have been a haven for stowaways. On that trip no less than a score of passengers not on the manifest found the sailing and the fare to their taste. When they reached port, however, the Federal authorities barred their entrance, and they were ordered deported. The photo shows the stowaways, guarded, just before they were deported from Boston to their home port.

SCHOOL LEAGUE SCHEDULE MADE

COMMITTEE SETS DATES AND PLACES FOR FINALS IN COUNTY CONTESTS.

The executive committee of the Wilbarger County Interscholastic League met Saturday and scheduled times and places for the final contests during the coming year. These will all be conducted in Vernon.

Finals in basketball, it is announced, will be held not later than February 4. Finals in debate, declamation, essay writing, and spelling will be conducted March 25. The county truck and field meet will take place April 1. Details concerning each contest will be announced by the respective directors.

County Directors.
Entries to the various county contests are made to the following: Athletic—J. A. Morrow, Vernon; Debate—Miss Thelma Smith, Harrold; Essay writing—Miss Lora Plack, Vernon; Spelling—W. W. Snodgrass, Vernon; J. N. Fulcher, principal of the high school, is director-general of this county.

Schools desiring to participate in the interscholastic contests must send membership fees at once to E. D. Shurter at Austin. From this source they can be provided with spelling lists, rules, and other literature.

Illies in company with Jack Ellis and family Sunday when the shooting occurred. Mr. George owns the farm upon which Rudder lives.

Before reaching the picnic grounds, Mr. George and Mr. Butler, alighted from the truck and cut across the pasture in search of game while their families proceeded to the destination. D. Massie was met coming across the field toward his home.

About fifteen minutes later, according to Mr. George, he and his companion heard the shouts of the boy who came running to them and begging for a gun. The party immediately hurried to the house and found the stricken couple as related before.

Controversy Over Crop.
According to Mr. Rudder, the Mexican worked a cotton crop on halves with him this season and in addition, owed him \$100. The entire yield was two bales, and the Mexican demanded payment. When reminded of his debt he refused to be pacified, and went to work for a neighboring farmer, returning at intervals to contest the issue with his former employer.

According to Rudder, his Winchester disappeared from his home last Tuesday, and it was this weapon with which he was shot. His revolver was taken Sunday before the attack occurred.

Chaste is described as being about 22 years old, smooth shaven, short, a sore resembling a cancer under his left eye, and speaks very broken English.

OFFICERS CAPTURE GIGANTIC STILL

PRIZE IS LOCATED IN BAYLOR COUNTY NEAR WICHITA RIVER BRIDGE.

A still of probably 65 barrel capacity was confiscated Thursday and four alleged operators, three of them Vernon residents, were taken into custody when Wilbarger and Baylor county officials raided their scene of operations. The prize was taken in Baylor county about three miles east of the bridge over the Wichita river. The four suspects are in the Baylor county jail.

According to the officers, the still had the appearance of having been operated for at least two months. It is said that the moonshiners brewed their product in Baylor county and then disposed of it in Vernon. Transportation of the liquor was made in an automobile ostensibly equipped for fishing and hunting.

Three of the prisoners are well-known here, and the fourth is a stranger. As yet they have not been released on bond.

Citizens Told To Watch Step.

Warnings to motorists and pedestrians have been painted on the bases of all lamp posts in the city. Those on foot are cautioned against "jay walking" while drivers are warned to refrain from speeding or opening cut-outs.

FIGHTERS ARRANGE VARIED PROGRAM FOR ARMISTICE DAY

Orrosion To Be Elaborately Observed in Vernon—Meeting On Court House Square In Morning and Unitedh Chure Services—Two Minute Universal Prayer—Athletic Program and Dance.

Every ex-soldier, sailor, or marine in Wilbarger county and from other localities as well is invited to be in Vernon Friday, November 11, for the observance of Armistice Day. At 11 a. m. the former fighters will assemble on the west side of the court house, and there will be band music and speaking. Civilian clothes will be in perfect order, those in charge of the program have announced.

No one is barred on the basis of term of service, it has been announced. It is merely hoped to fittingly observe the occasion in keeping with the proclamation of the President of the United States. At 11:30 the memorial services of the day will be held at the Baptist tabernacle. Vernon churches will unite in staging this observance.

Two Minute Prayer

At 12 o'clock noon the fire siren will sound one shrill blast and persons everywhere are expected to stand in meditation and prayer for two minutes. Men will remove their hats and all faces will be turned towards the East. At the expiration of two minutes bugles will sound "attention." This procedure will also be observed nationally. The services at the tabernacle will be concluded with the bugles sounding taps.

The nation's unknown warrior will be laid to rest in Arlington cemetery at 12 o'clock noon Friday. This ceremony will be attended by the highest dignitaries of the country.

Stores To Close.

All businesses with exception of drug stores and cafes, it is announced will be closed in Vernon Friday. In the afternoon at the Elks Club a smoker will be conducted for all ex-service men. There will be a battle royal between dusky fighters, and wrestling and boxing bouts of merit.

In the evening there will be a ball for the ex-soldiers, sailors, and marines. A nominal charge of one dollar per couple will be made, the proceeds going toward equipping club and library rooms for former service men. All buglers are requested to furnish their services during the morning Friday. Instruments will be furnished to those who do not possess them.

Dallas Sales Price Is Regular Here.

In an advertisement carried in the Dallas News of Sunday is the announcement from a firm in that city that a certain line of shoes are being offered at sale for \$13.50. This is heralded as providing a saving of \$2 to \$4. It is significant that the same shoes have been offered for sale in Vernon several months at \$13.50, regular price.

METHODISTS TO CONDUCT MORNING AND EVENING PROGRAMS THURSDAY.

Thursday, November 10, will be observed as a day of prayer by the Missionary Society of the Methodist Church. The general topic will be "Conquest Through Prayer." Mrs. J. H. Watts will be leader in the morning. The morning meeting will be conducted from 10:30 until 12 o'clock, and a set program has been arranged for each hour in the afternoon. Mrs. E. L. McHugh and Mrs. J. L. Swartwood will be leaders at that time. Young and old persons will participate in the program. There will be songs and recitations by the little folks and talks by the older ones present.

To Assist Welfare Association.

Every assistance will be loaned the Wilbarger County Welfare Association by the local Lions Club in raising its budget for the coming year, according to a resolution adopted by the latter organization at its luncheon Friday. A campaign for these funds is scheduled for the near future.

REV. W. T. ROUSE TO RESIGN FEB. 1

BAPTIST MINISTER ANNOUNCES RETIREMENT FROM PULPIT LAST SUNDAY

Rev. W. T. Rouse, Baptist minister, will resign from his pulpit here February 1, 1922, according to an announcement made Sunday to his congregation. Mr. Rouse has been in Vernon since June 1, 1917, coming here from Memphis. He is uncertain concerning plans after February 1.

Mr. Rouse has taken a prominent part in local church circles since coming here, and has been chairman of the Vernon Pastors' Conference for two years. During its ministry there have been 501 additions to the church, he has married 118 couples, and officiated at 114 funerals.

J. O. Rouse of the Vernon Abstract Co. is a brother of Rev. W. T. Rouse, and T. L. Rouse, editor of the Vernon Times, is a son.

STUDENTS HOLD PEP MEETING.

Cheers And Songs Resound In Business District Of Vernon Friday Afternoon.

High school students conducted a "pep" meeting Friday afternoon after the movement had been sponsored by the local Lions' Club. Four members of this organization received the sanction of Superintendent E. L. Dohoney in their attempt to instill into the student body enthusiasm for the football game with Memphis Saturday, and accordingly every pupil was enlisted in a parade which formed about 3:30 in the afternoon at the building.

Cheers and songs featured the meetings on three downtown corners, and there was a snake dance down Main street. The students then disbanded at the square.

The Lions' Club is endeavoring to assist the high school athletic department in having larger crowds at the football games.

Pie Supper At White City Pays.

Fifty dollars were realized Friday night from the pie supper given at White City. Proceeds were devoted to tuning the piano at the school and purchasing athletic equipment. Following the supper a literary society was organized with Miss Mary Anna Covert president and Miss Beatrice Hughes secretary. Mrs. Luther White offered a very pleasing piano solo for the musical part of the program Friday.

Armistice Day Services Friday.

Armistice Day services will be conducted Friday, November 11, at the Baptist Church by all of the churches in the city in joint session, according to a decision reached last week-end by the Vernon Pastors' Association. These will commence at 11:30 in the morning and last but a short while. A program committee was appointed to arrange details for the services.

FARMERS DISPLAY INTEREST TOWARD WEEVIL MENACE

Court Room Well Filled Saturday By Audience Which Sees Evidence of Pest Clearly Placed Before It—Talks Made by Those Possessing Experience—Meeting Scheduled For Saturday.

Much interest was manifested Saturday at a meeting conducted by farmers in the district court room for the purpose of discussing means of combatting the boll weevil, and a permanent organization was effected to wage battle against the pest. A. M. Hiatt was made president, T. H. Shive secretary, and together with three others, J. H. Pettit, Lon Byars, and J. T. Oates, form a central committee.

The court room was more than half filled with farmers, and before the meeting was called to order those present made a close examination of the boll weevil placed on the court room table. The pest ranged in size from the grub to the full grown insect, and removed all doubt concerning the discussion as to whether or not the weevil actually existed in Wilbarger county.

Weevil Destroyed Crop.

A farmer, Mr. Hardage, was called upon for the first account of his experiences with the boll weevil. He informed the audience that he lived in Indian territory during 1904, '05, and '06, and that prior to the coming of the weevil cotton averaged one-half to one and one-quarter bales to the acre. The weevil was first noticed in 1904. Soon thereafter production dropped to an average of seven bales to thirty acres, and later to one bale. Finally there was no cotton left to gather.

A cleanup campaign was then inaugurated by the Farmers' Union. Burning out every fence corner and all places where trash had accumulated was carried out, and in 1907, a wet year, the pest was not noticed. In 1908, another wet year, there were no weevils, and it finally disappeared.

Cleanup Campaign Helped.

F. H. Littleton, living west of town, followed Mr. Hardage with a graphic account of the depredations committed by the cotton destroyer. Littleton declared that he possesses seven or eight years experience with the pest, and that he first encountered its threats in Ellis county. A vigorous cleanup campaign there accomplished much good, he stated, and stock was put into the fields to graze.

In Denton county, where Mr. Littleton later moved, the cotton crop was a complete failure. Land in that vicinity is heavily timbered and as a consequence it is practically impossible to successfully attack the weevil.

Continuous dragging of cotton fields was advocated as a preventive measure by Mr. Littleton. Such a process in the summer, he asserted, causes the squares, which are breeding places for the weevil, to drop off and the hot sun kills the larvae. The best time to fight the weevil is at the present time, Mr. Littleton said in closing.

Weevils in Trash Heap.

J. C. Adams of Hood county, at present employed at the Farmers Gin in Vernon, was the next speaker. Mr. Adams exhibited a bottle of weevils he had gathered from the trash pile at the gin which he characterized as "being alive with them."

"Persons say, 'Do you think we have weevils in Wilbarger county?'" said Mr. Adams, "and I say there is no think to it. I know we have. They ate me out of my farm forty miles west of Fort Worth, and I am certain concerning their identity."

Destroys Entire Crop.

"Years ago there were eighteen gins in our county, and their output each season was about 30,000 bales. Now there are three gins which handle less than 1,000 bales a year. Last year I did not gather a scrap of cotton from 100 acres, this year I got about 1,000 pounds of lint from the same land."

"To those persons who do not believe we have them here, I want to say that they are traveling over the trash pile at the gin like ants in a hill. But they are not hard to fight in this country because there is no timber. The weevil does his work in wet weather."

"We believe all have noticed the tremendous number of people coming through here this year by wagon trails."

.. Proud of Our Business ..

It is a trait of Americans to be proud of America's Achievements in every thing in which she leads—Kind of an inborn way we have to be proud. We just have to talk about it. Not a bad fault either.

As Retail Grocery Merchants we have this proud feeling, just cannot help it, as today we count our friends by the hundred. There is a reason for the success of our Business. Ours is not a cold-blooded proposition, we will not take your cold cash and then turn you down when adversities over take you. Head yourself in the direction of a sound, reliable Firm.

ISSUES WARNING****L. G. HAWKINS SEES DANGER IN
BUYING SEED FROM UN-
KNOWN SOURCES.**

Warning farmers against buying cotton seed from unauthentic sources was sent out today by L. G. Hawkins, county chairman of the United Campaign for Better Agriculture. The discovery of the pink boll worm in Ellis county near Ennis last week was the cause of Mr. Hawkins' warning.

"Cotton seed for planting purposes is being sold in Wilbarger county by agents from no one knows where," Mr. Hawkins stated. "Unless one knows absolutely where this cotton seed comes from, it is risky business to buy it."

Thirteen Counties Infected.

"I see in the Dallas News of last Sunday that the pink boll worm has been found in Ellis county. Seed in that vicinity was shipped to oil mills in Ellis county from New Mexico. There are thirteen counties in Texas which are infested with pink boll worms. The boll weevil has ruined the cotton crop of most of East and Central Texas."

As a result the cotton oil mills in that section are having to ship in seed from anywhere they can get it. It is possible that cotton seed from infested areas may be shipped to oil mills in many other counties."

Worm Is Distinctive.

The pink boll worm is entirely different from the boll weevil. The first is a worm which is carried in the seed. The weevil is an insect which punctures squares and bolls. Not being a thimbered country, we can control the boll weevil by plowing the stalks under, or uprooting and burning them, burning fence rows, burning trash, or by pasturing cotton fields.

The pink boll worm is a different thing. It eats up bolls, squares, leaves and seed. It often damages a crop 70 per cent. Be careful that you do not buy pink boll worm."

Today—May McAvoy in "A Private Scandal."

May McAvoy takes the part of a French orphan who is adopted into the family of Philip Lawton, a wealthy man. Through love of his thoroughbred he neglects his wife, which permits a family friend to usurp the husband's place in her affections. Jeanne develops a romance with Jerry Hayes, the stable manager. But clouds shatter the sunshine because it is her duty to protect the wife and take the responsibility. The picture develops several novel twists and carries considerable dramatic force.

Wednesday and Thursday—Conway Tearle in "Bucking the Tiger"

The interest centers around Ritchie MacDonald, the role assumed by Tearle, who has reached the "end of his rope." He and his four companions, Graham, Hillyer, Walsh and the Count are in desperate straits and MacDonald suggests in order to raise \$100,000 one of them be insured for that amount, and when he dies at the end of a year, the rest can collect. They draw cards and MacDonald agrees to sacrifice his life.

The various means used to raise the money to pay the premium on the policy, a love affair that springs up between MacDonald and a girl of the camp, the kidnapping of the girl in a blinding snow storm, and the unusual turn of affairs before the year has ended, are but a few of the high points of this interesting story. It is replete with action and suspense and contains much excellent photography.

LOCAL HIGH SCHOOL STAGES PAGEANT

PROGRAM THURSDAY WILL COM-MEMORATE FIRST ANGLO-SAXON SETTLEMENT

A pageant commemorating the first Anglo-Saxon settlement in Texas in 1821 by Stephen F. Austin will be staged in the Vernon high school auditorium Thursday night, November 10. The program will commence at 7:45. Proceeds from the sale of tickets will be used to provide every school in town with a library.

Admission will be twenty-five cents for children and fifty cents for adults. Tickets will be given to the various parent-teachers associations in the city, and each organization will be permitted to keep the funds resulting from their respective sales.

Fostered by Rotary.

The pageant that will be presented represents a movement being fostered by the Rotary clubs of the state to commemorate the centennial of the first white settlement in Texas. The title of the pageant is "Texas Under Six Flags," and it has been compiled by Edwin R. Bentley. There are six episodes and a grand finale.

The stage in the auditorium has been enlarged, and appropriate costumes obtained for the cast. Professor Paul Goetze's orchestra will play during the performance, and the high school chorus will sing.

The episodes presented will be the following: (1) French Discovery and Possession; (2) Spanish Exploration and Mission Building; (3) Mexican Regime—(a) Colonization by Stephen F. Austin and (b) The Texas Revolution; (4) Republic of Texas; (5) Under the Confederacy; (6) Under the United States.

The cast in the pageant embodies more than 125 persons. The more important parts will be taken as follows: La Salle—Maurice Trout; Stephen F. Austin—George Colter; Sam Houston—Elton Cook; Santa Anna—Walter McElroy; Texas—Miss Hazel Vaughn; Liberty—Miss Opal Williams; Justice—Miss Frances Groover; Immortality—Miss Mary Hope Westbrook; Uncle Sam—Preston McCombs.

WILL BACK HEALTH CRUSADE.

Shive School Parent-Teachers Association To Assist State Worker Here.

No program was rendered Friday at a meeting of the Shive School Parent-Teachers Association on account of other business before the organization. The resignation of Mrs. L. E. Piper as treasurer was accepted, and Mrs. C. S. Rutledge elected to the office. A committee consisting of Mesdames Della Housels, F. E. Murchison, J. E. Lutz, and Miss Floy Tacker was appointed to draft a constitution and by-laws.

A partial report from the finance committee stated that thirty-five dollars have been collected toward the library fund, and about fifteen more are promised. A communication from Miss Pearl Hyer, field worker for the Texas Public Health Association, was read in which co-operation was asked for the staging of a modern health crusade in the public schools of Vernon. This co-operation was unanimously granted, and Miss Sheila Porter and Mrs. Raleigh Hooper were appointed assistants to Miss Hyer is conducting the work here.

Members of the association are requested to watch for the date and place for the next meeting as business of special importance will be transacted then.

Red Cross To Stage Drive.

The same councilmen in Wilbarger county who serve for the newly organized Wilbarger County Welfare Association will also be asked to serve in the same capacity for the Red Cross. The Red Cross will stage a drive for members and funds in conjunction with the Association campaign November 11 to 24. Practically every cent raised this year will be kept in this county for the public health nurse or any charity work deemed worthy. Mrs. Bertha Ross is Roll Call Director of Wilbarger county.

Wins Awards At Cotton Palace.

Third cockerell and third pullet were won at the Cotton Palace by Adam Donges, local breeder, with Buff Orpington specimens. The awards were gained against strenuous competition, according to word received here. A communication from the fair management complimented Mr. Donges on his unusually fine chickens.

DEMENTED MAN LOSES LIFE

Victim of Railroad Train At Memphis Believed To Have Been Vernon Prisoner.

An account carried in a State paper last Sunday announced the death at Memphis of a man who is said to have jumped in front of a moving train. A description of the unfortunate victim and communication with officers at Memphis has convinced county officials that the man was H. Schwartz, demented, and arrested here October 23.

Schwartz was detained here for some time while efforts were made to place him in a State asylum for the insane. Due to crowded conditions, however, this opportunity was denied and a communication from the man's relatives indicated that he was at the county's disposal. Accordingly, unable to place the man anywhere for permanent detention, county officials last week released him.

When arrested here absolutely naked, Schwartz asserted his wife is a stenographer at Bryan.

A life belt to go around the case containing his famous Street-riding victim was the first thought of Jan Kubelik, when the Ostend mail boat, on which he was a passenger, collided with a Norwegian sailing vessel in a fog off the Goodwin Sands.

Mr. and Mrs. Chandler Caraway left by automobile for their home in Shawnee, Okla., Saturday after a visit with their mother, Mrs. B. J. Parker.

The condition of Mrs. Lela Albright, who has been critically ill at her home on West Texas street, is not so satisfactory today.

All union barber shops will be closed Friday, November 11, on account of Armistice Day. 86-11c

MUNICIPAL ELECTRICITY

The proposal of Vernon's city com-
 mission to enlarge its light plant and
 to add equipment for making ice, so
 that the community and surrounding
 territory may be served from a muni-
 cipal plant seems to strike a popular
 chord. Undoubtedly, in the minds of
 many this would be a wise move.

Municipal ownership of public util-
 ities is a question as old as modern
 government. Economists long claimed
 that public ownership and operation of
 those enterprises which were compli-
 cated in operation—such as street rail-
 ways, for example—offered obstacles
 much greater than are afforded by the
 operation of water and electric light
 plants. The distribution of these is a
 relatively simple matter.

Vernon has been making electricity
 for its own use for some time, appar-
 ently at a profit. It is claimed that
 the water works yields the municipality
 a profit. There seems reason to infer,
 then, that electricity might be supplied
 the entire community at a saving to the
 consumer or a profit to the city, or
 both.

Nor are there any outstanding ob-
 stacles apparent in the way of the man-
 ufacture of ice at a price that will
 meet with public approval.

VERNON AN INDIAN VILLAGE?

Despite the fact that Vernon has
 more street paving, a better water
 supply, and more attractive lawns than
 any other municipality of like size in
 the entire Southwest, in at least one
 particular Vernon strangely resembles
 the Indian village which one might
 have found on these prairies half a
 century ago. The town is over-run
 with dogs.

Canine of every size and description
 may be found—from the almost micro-
 scopic variety of lap dog to the bound-
 ing air-dale. Some of the animals are
 valuable, and some are doubtless only
 a fad.

While the dog is "man's best friend,"
 there are undoubtedly too many of
 them roving the streets of Vernon. It
 is not at all likely now that an epi-
 demic of hydrophobia will infest them
 —not before warm weather again—but
 should such be the case it would be-
 come very serious.

Wherever dogs are kept for a pur-
 pose they are worth while. They seem
 likely, however, to become a public
 nuisance in Vernon.

GET THE HABIT, PLEASE.

Children are taught to say "please,"
 "thank you" and "you are welcome,"
 but when they get older they shake off
 the traces of their early youth and for-
 get these phrases of fundamental po-
 liteness.

Many children have been spanked
 for not saying "please," many have
 foregone the pleasure of having some
 things because they were stubborn and
 refused to say "please" when they

knew that that would bring the desired
 object to them.

In our hurry and rush through life
 we forget, some of us all the time, most
 of us some of the time, to be polite and
 gentlemanly. To say "please" requires
 but a moment, but what a pleasure it
 lends to the transaction! It makes hu-
 manity less harsh and brutal. The
 energy required and friendliness is
 trivial, really negligible. All that is
 necessary is the habit.

Get the habit and make me would a
 little less sharp. Say please. It'll
 please the world and please you.—The
 University Missourian.

BANKS ARE ADVERTISING

Fort Worth banks are spending
 money individually in institutional ad-
 vertising and in addition are co-operat-
 ing in the expenditure of \$12,000 for a
 year in a joint advertising of functions
 that a bank may perform for an indi-
 vidual and for a community as a whole.
 Time was when a bank to advertise
 would have brought on as big a shock
 as for a doctor to use display space to
 tell of himself; it was unethical or
 regarded so. But the time, happily, is
 past, and they are now bringing them-
 selves and their functions before the
 public thru real advertising.

Bankers know their business and are
 prone to think the fundamentals of it
 are perfectly understood by others—an
 idea that is rather general among most
 professionals. But the modern banks
 are functioning in many ways that
 would be of advantage to the general
 public and to the banks as well, if the
 general public understood them; and
 that is what the bankers of this day
 and time are doing in the use of mer-
 chandising methods that they should
 be so committed but because their suc-
 cess is indissolubly bound in the wel-
 fare and growth of their territories.

And in passing, it might be well to
 suggest that the banks would be able
 to do much more than they are able
 to do if every dollar in the community
 were put into the banks where it would
 work in the unbuilding of that com-
 munity's business and general prosper-
 ity. The unbanked dollar, the hoarded
 dollar, is not worth much to the com-
 munity; the dollar in the bank is equi-
 valent to five dollars in the credit of

**The Story of
Our States**

By JONATHAN BRACE
 XV.—KENTUCKY

THE kinship
 of Ken-
 tucky and
 Virginia is
 that of par-
 ent and child.
 From Virginia
 came most of
 the settlers of the western state,
 and with them these pioneers
 brought Virginia institutions
 and ideals. It was not until
 1750 that the first authentic
 journey was made by a white
 man into central parts of the
 region afterwards called Ken-
 tucky.

Further explorations showed
 that this territory held two im-
 portant attractions for settlers.
 The first was the great fertility
 of what was called the Blue
 Grass region. The so-called
 blue grass, from which this
 state is nicknamed the "Blue
 Grass State" is in no wise pec-
 uliar to Kentucky.

The second inducement for
 settlers was the fact that there
 were no Indians living in this
 region. It was later found that
 many roving bands of savages
 crossed the Ohio from the north
 and sorely harassed the early
 colonists until Clark's expedi-
 tions into Ohio and Indiana
 checked their invasions. In fact,
 the name Kentucky is probably
 derived from the Iroquois word
 kentka-ke, meaning "hunting
 land." Another interpretation
 is "dark and bloody ground,"
 but this is doubtless incorrect.

The main highways of travel
 at that time were Daniel
 Boone's "Wilderness Road"
 through Cumberland Gap and
 down the Ohio. Hardy pioneers
 poured into this new territory
 in such numbers that in 1792,
 with the permission of Virginia,
 Kentucky was admitted to the
 Union as the fifteenth state with
 an area of 40,598 square miles.
 Kentucky has thirteen electoral
 votes for president. The re-
 markable physical condition of
 its population is shown in a re-
 port of the volunteers in the
 Civil war. This gave their av-
 erage height as nearly an inch
 taller than the New England
 troops and with a correspond-
 ingly greater girth of chest.

THOUSANDS GREET FOCH BY LAND AND SEA

Marshal Foch, Generalissimo of the Allied Armies, upon his arrival in New York received a welcome such as has not been experienced since the Armistice Days of 1918. The thunderous din in the harbor, along the waterfront and along the line of march of the famed old fighter never has been equalled. Cannon on Governor's Island boomed out a deafening salute, trans-Atlantic steamships vied with tugs and ferryboats with ear-splitting blasts of their sirens, and hundreds of river and harbor craft of every description sent out a shrill ovation that added to the gigantic roar. The city, State and Nation formally greeted the celebrated Marshal when he stepped foot on American shores. The photograph shows Mayor Hylan shaking hands with Marshal Foch. On the right is Governor Miller and on the left Rodman Wanamaker.

the community.—The Denton Record-
 Herald.

ONE REASON FOR FIGHTING

One very important reason for fight-
 ing the boll weevil is the effect an
 invasion of the pest would have on
 property values. Certainly the loss of
 a cotton crop would be burden enough
 —even if the insect might be curbed
 and reasonably good yields secured in
 future years. And this is possible.

But let it once be known that Wil-
 barger county had become infested with
 the boll weevil, and farmers wanting

to invest their savings either in a home
 or with an idea of selling at a profit
 some time later would avoid this sec-
 tion as a plague spot.

A yield this year, in many cases of
 more than a bale to an acre, will stamp
 Wilbarger county as an especially fa-
 vored agricultural section. It will be
 made known practically all over Texas,
 and will tend to attract thither a
 multitude of home-seekers.

All of this means increased land
 values, more farmers, a more prosper-
 ous community. For these reasons we
 must fight back the boll weevil. To be
 effective the fight should be started
 today.

VERNON SMOTHERS MEMPHIS 67 TO 0 IN GAME SATURDAY

Locals Are Able To Gain At Will Through Line and Around Ends—Visitors Threaten Only At Close of First Half—Coach Morrow's Line Holds Well—Small Makes 70-Yard Run.

Running the ends, plunging the line, forward passing, in short—utilizing practically every phase or open and straight football—Vernon swamped Memphis high school's representation here at the fair grounds Saturday 67 to 0. The visitors at no stage of the game possessed even a chance, and were hopelessly outclassed from the start. Although the locals performed in creditable style, their victory was gained over a team possessing little or no knowledge of even the fundamentals of the game.

Vernon's backfield gained practically at will, Small, Hollar, and Bramblett uniting in long end runs that completely circled the Memphis ends. Apparently gaining confidence through their obvious superiority over the visitors, the backs also ran better interference than any seen in previous games here this season. Several beautiful runs were made by the Vernon ball jugglers, one by Bramblett in the third quarter, when he whirled off several Memphis tacklers for a touchdown, featuring. Small made a touchdown after intercepting a pass on his own 30-yard line.

Line Holds Well.

Vernon's line was practically impenetrable. Time and again the visiting backs crumpled in their smashing attacks before the sturdy resistance of the local forwards. Robinson, Morris, and Baird showed to particular advantage in the line.

On the whole, however, Vernon's tackling was extremely ragged. Two and three players were required to stop a majority of the opposing runners, and there was an abundance of high tackling and even clean misses. Memphis employed a short forward pass over the line to excellent advantage, and Vernon was practically powerless to thwart this style of attack.

C. Lemons, visiting captain and full back, received an injury soon after the game commenced that forced him to retire. His loss clearly added to the demoralization of his teammates.

First Quarter.

At 3:30 Memphis kicked off, a short roller to Thompson. Vernon attempted two line bucks unsuccessfully, and Small passed to Bramblett which was narrowly missed. Bramblett made fifteen yards around right end, and on the next play Vernon was penalized five yards for offside.

Small reeled off ten yards around left end, and Bramblett made eight more a few moments later around the other wing.

Time was taken out for the Memphis captain, Lemons, who left the game.

Vernon was on the ten yard line. Parr made a good gain through the line, and Hollar carried the ball over. Bramblett kicked goal. Score: Vernon 7—Memphis 0.

Vernon Blocks Punts.

Parr kicked off to the 10-yard line. Vernon was penalized five yards for offside. Memphis made eight yards around right end. Vernon blocked a punt but Memphis recovered. Vernon

blocked another punt but this time gained possession of the ball. It was the locals' ball on the 30-yard line.

Small made 20 yards around left end. Parr smashed through for a touchdown. Bramblett kicked goal. Score: Vernon 14—Memphis 0.

Parr kicked off to the 12-yard line, but the ball was returned 20 yards. Vernon players tackling poorly. Local forwards smeared several line plunges in quick succession. It was Vernon's ball on downs.

Vernon was offside, and also suffered a 15 yard penalty for holding. Small made a good pass to Hollar who caught the ball but dropped it when tackled. The first quarter ended before the play was commenced. Score: Vernon 14—Memphis 0.

Second Quarter.

Parr kicked to the goal line, the ball bounding past the visiting safeties. Memphis kicked from behind the line to the 20-yard line. Bramblett circled right end for 15 yards. Small went over for a touchdown. Bramblett kicked goal.

Score: Vernon 21—Memphis 0. Parr kicked off to the 15-yard line. Memphis punted to Bramblett who returned 30 yards. A pass, Bramblett to Hollar, netted 20 yards. Small sped around left end behind good interference for another touchdown. Bramblett kicked goal.

Score: Vernon 28—Memphis 0.

Recovers Onside Kick.

Parr kicked a short one about 18 yards and Baird recovered it. Bramblett shot around right end for 20 yards, performing some good open field running. Vernon opened a battering line attack that sent Hollar over for a touchdown. Bramblett kicked goal.

Score: Vernon 35—Memphis 0.

Hollar kicked off to the 15-yard line. Memphis completed a short forward pass. A line attack failed. Memphis executed a forward pass from a spread play that netted 30 yards. A moment later Hollar interfered with a Memphis receiver on a forward pass, and the ball was given to Memphis on the line where the foul occurred. It was the first time Memphis even threatened the local goal. The whistle blew for the first half with Memphis in possession of the ball on Vernon's 5-yard line.

Score: Vernon 35—Memphis 0. Vernon students executed a snake dance on the field between halves.

Second Half.

Parr kicked to the 3-yard line. Memphis opened up an aerial attack which failed and the ball went over on downs. Small completed a pretty pass to Bourland who dropped the ball with no one between him and the goal line. Bramblett flipped a 25-yard pass to Hollar who made a beautiful catch. It was Vernon's ball on the 3-yard line. Small went over for an apparent touchdown. The play was not allowed, however, on the basis that the ball was not over

the line, and it went over to the other team on downs.

Memphis punted and the kick was blocked. Vernon recovered on the 5-yard line. Bramblett executed a pretty run around right end for a touchdown, whirling off opposing tacklers. Bramblett kicked goal.

Score: Vernon 42—Memphis 0.

Parr kicked off 20 yards. Small intercepted a pass after a few plays and raced 70 yards down the sidelines for a touchdown. Bramblett kicked goal.

Score: Vernon 49—Memphis 0.

Memphis Passes Effective.

Parr kicked off 40 yards. Memphis executed a pass over the line for the seventh consecutive time and first down. Small intercepted a pass and returned the ball 20 yards. The third quarter ended with the ball on Memphis' 35-yard line.

At the opening of the fourth quarter, Small passed 20 yards to Hollar.

Vernon lost the ball on downs, the Memphis line showing a surprising resistance. Memphis kicked low to Hollar. Bramblett tossed the ball 15 yards to Small who went over for a touchdown. Bramblett missed goal.

Score: Vernon 55—Memphis 0.

Baird kicked off to the 10-yard line. Memphis lost the ball on downs. Small made 20 yards around left end. With one minute to play, Vernon had the goal line to make in ten yards. Vernon was penalized 5 yards for offside. Memphis intercepted a pass on its 1-yard line. Memphis punted to Hollar who made a good return. Small raced around left end for a touchdown. Baird missed goal.

Score: Vernon 61—Memphis 0.

Score In Closing Seconds.

With only seconds of the game remaining, Baird kicked to the 10-yard line. Memphis lost the ball on downs. It was Vernon's ball on the 40-yard line. Bramblett flipped a pass to

Small for 30 yards, and the fleet Vernon captain negotiated the remaining distance for a touchdown. Baird missed goal.

Score: Vernon 67—Memphis 0.

Baird kicked off to the 15-yard line.

Memphis advanced the ball to its own 40-yard line and the game was over.

A shirt tail parade down Main street in the evening celebrated the victory for Vernon students.

PREMIUM LIST FOR POULTRY RAISERS

BOOK SOON TO BE DISTRIBUTED
OVER COUNTY BY NEW
ORGANIZATION

An attractive premium list will be distributed in the near future by the Willbarger County Poultry Association among all parties who are prospective exhibitors at the poultry show here in January, according to an announcement of the secretary of the organization. This book will contain practical information to poultry raisers, and will also embody the name of every standard breeder in the county, his address, and the variety of chickens he raises. Breeders are expected to preserve this book from one year to another.

Merchants will be visited and solicited for advertising. More than 500 copies of the premium list will be judiciously distributed.

Working Over County.

H. D. Hockersmith, secretary of the Association is visiting ladies' clubs over the county for the purpose of stimulating interest. He is being ably assisted in this work by the county home demonstration agent.

Details of the chicken show are being worked out, and careful plans are being laid to make it the best exhibit ever staged in this county.

Those sponsoring the show are exerting every effort to stimulate an interest in an industry felt to be a permanent benefit to the county. There is no fund upon which to draw in order to meet the expenses of the show, and for that reason it must be self-sustaining.

Groceries

Are moving in and out of my store and business is good.

I do not sell one article at or below wholesale cost and make up the profit on some other article whose value is not so well known. Every article bears its little profit.

Good goods, good service and good treatment are three things you get at my store.

Am keeping grapefruit, oranges, apples, bananas, fresh grapes and head lettuce practically all of the time now. Last week I sold some twenty-five pounds of good country butter, and while I do not quite supply the demand on this article, what I do sell is good.

DIRECTORS TOLD OF BOLL WEEVIL

HOOD COUNTY RESIDENT GIVES
GRAPHIC ACCOUNT OF
DREAD PEST

Menace from the boll weevil in Wilbarger county formed the principal topic Friday at a meeting of directors of the Vernon Chamber of Commerce. John C. Adams of Hood county, who spoke before the commercial heads, informed them that the production there this season was cut by the weevil from an average yield of 30,000 bales to 1,000 bales. The speaker asserted that Wilbarger county residents do not realize the damage the pest can accomplish.

There are vacant houses everywhere in central Texas, Mr. Adams informed the directors, and the weevil has advanced up the Denver to Clay and Montague counties, where it has ravaged the cotton crops.

Weevil Here, Too.

"The weevil is here, too," the speaker declared, exhibiting a can alive with the insects. "Many persons do not believe these bugs are boll weevils; but they are eating up cotton in this vicinity. I got these weevils from the trash run from one of the gins in Vernon."

When asked concerning effective means of checking the dread pest, Mr. Adams informed the directors that the most acceptable methods entailed cleaning up trash, burning fence rows, destroying old stalks and pasturing cotton field until the old bolls are eaten up.

Endorse Campaign.

Directors at their meeting endorsed the United Campaign for Better Agriculture, which has for its purpose advocating no increase in the 1922 cotton acreage and the promotion of diversified and better farming. The manager of the Chamber was instructed to co-operate with the leaders in this campaign. The commercial body has already aided this campaign by placing its office at the disposal of the Farm Bureau and L. G. Hawkins, county chairman of the campaign.

WHEN THE PAPER DOESN'T COME

My father says the paper he reads ain't my own right.
He finds a lot of fault, he does, perusing it all night.
He says there ain't a single thing in it worth while to read,
And that it doesn't print the kind of stuff the people need.
He tosses it aside and says it's strictly on the bum—
But you ought to hear him holler when the paper doesn't come.

He reads about the wedding and he snorts like all get out.
He reads the social dothin's with a most derisive shout.
He says they make the papers for the women folks alone.
He'll read about the parties, and he'll fume and fret and groan
He says of information it doesn't have a crumb—

But you ought to hear him holler when the paper doesn't come.
He's always first to grab it and he reads plumb clean through.
He doesn't miss an item or a word, and—that is true.
He says they don't know what we want, the darn newspaper guys.
I'm going to take a day sometime and go and put 'em wise;
Sometimes it seems as though they must be deaf and blind and dumb—
But you ought to hear him holler when the paper doesn't come.

DIAZ PAYS TRIBUTE TO ROOSEVELT'S MEMORY

A tribute of respect and homage from Italy to the memory of Theodore Roosevelt was paid by General Armando Diaz, head of the Italian Army, when he placed a wreath of flowers on the grave of the former President, at Oyster Bay. Accompanied by a party of over one hundred persons, many of whom were in uniform of the American and Italian Military service, General Diaz displayed a keen emotion at the memory of Roosevelt. He said: "At the tomb of Roosevelt no speech can be made. Only an expression of the deepest homage I bring from my country. During his life he was adored, and at his death he was beloved by everybody." The photo shows General Diaz saluting after placing a wreath on the tomb of Theodore Roosevelt.

The World's Metropolis

Within a radius of twenty miles of New York City's Municipal Building there are more than seven millions of people. More than 50 different tongues are spoken in New York City every day, and there are more than 25 newspapers published in foreign languages. Forty-five per cent of the entire population is foreign-born, and more than 60 per cent is either foreign-born or children of foreign-born parents. There are more Italians in New York than in Rome; there are more Germans than in any other city of the world except Hamburg and Berlin; there are Russians enough in New York City to constitute a city as large as St. Louis; there are twice as many Jews as ever lived in Jerusalem at any one time. The largest Jewish population ever assembled upon earth since the exodus from Egypt is now congested in New York City. It is the largest Negro city in the world, and it is also the largest Irish city in the world. There are 200,000 more Irishmen in New York than there are in Dublin.

INDIGESTION A MODERN AILMENT

PRESENT DAY FOODS HARD
TO ASSIMILATE

Indigestion is the outgrowth of modern standards of living. Back in the ages before men ate so many rich and highly refined foods, indigestion was unheard of.

Many of the mineral elements which the human system needs are never provided for in modern foods.

Ferrasal contains the mineral elements which the system needs. It restores the digestion to its natural healthy condition. It neutralizes the accumulations of acids which are the direct cause of 90 per cent of all digestion trouble, and which, if neglected, causes chronic kidney trouble, rheumatism, constipation and indigestion.

Do you have headaches, bad breath, gas on the stomach and bowels or constipation? Ferrasal is guaranteed to bring you prompt and permanent relief or your money back—at your druggist's.

FARMERS DISPLAY INTEREST TOWARD WEEVIL MENACE

(Continued from Page 1)

Well, all those folks are from boll weevil country. They are eaten out of their homes."

Is Convinced Of Presence.

Guy R. Jones, county agent, who spoke next, remarked that there has been a question whether or not the boll weevil actually existed here. He stated that the evidence lay before the audience to examine at its pleasure. Personally he said, he is absolutely convinced that the specimens submitted are of the boll weevil.

"Whatever it is," said Mr. Jones, "we know it is eating the cotton. In the southwestern part of the county as well as in the forks of the river and other sections, the degradations of the insect can be clearly seen.

"I have seen the weevil at work in my native state, Georgia. I have seen fine sections wiped out. Concerning the question, as to whether or not cold weather affects the pest, I may add that I once saw a boll weevil frozen in a block of ice and left there for twenty-four hours. At the expiration of that time when the ice had melted the weevil moved about and finally flew away.

"Cotton is practically out of the fields now, and this is the time to put up a fight."

Outlines Life Of Weevil.

Mr. Jones then gave an outline of the life of the weevil. It lays its eggs in the squares, he said, and before the cotton blooms, it lives on the plant. Only one egg is laid in each square, and it is estimated by scientists that the female weevil can lay 140 eggs. Its tremendous multiplication is thus clearly evident.

The leaves of the plant first turn yellow, said Mr. Jones, and then the weevil hatches into a worm. The worm eats out the square and then goes into the pupae stage from which it emerges as a boll weevil. Fourteen days are required from the transformation of the egg to the weevil.

As the season progresses, the weevil lays its eggs in the bolls. It passes the winter in the adult stage and gets in cover to protect itself. When these places of refuge are destroyed, the weevil is destroyed at the same time.

Lives On Cotton.

The weevil eats a few other plants, but absolutely cannot be raised any other place than in the cotton field, the county agent pointed out. If trash and breeding places are eliminated, the weevil is destroyed as well.

Where possible, land should be turned under, and stalks should be cut while green. Stock pastured in the fields will eat the green stuff.

Mr. Jones concluded his remarks by stating that there is no reason why the weevil cannot do damage in this section. It has laid other localities here, he said, and can do likewise here. However, efforts to combat it in the fall are the most effective.

County Will Clean Up.

Mr. Jones informed the audience that the county judge had intimated that the commissioners will clean up the roads if the farmers will do the same to their fields. He added that each man should urge his neighbor to co-operate. Cleanup methods will benefit the man employing them, but they are far more worthy if everyone participates.

At the conclusion of Mr. Jones' talk various citizens of Vernon and farmers expressed their views on the situation. Some stalks raised in this county and from which bolls had been eaten off attracted considerable interest from those present.

Officers were then elected and committeemen appointed for every community in the county. Those committeemen will push the cleanup work in their respective districts.

Meeting Here Saturday.

A meeting has been called for all committeemen and farmers for Saturday afternoon, November 12, at 2 o'clock to hear an address from R. R. Reppert of College Station, considered one of the leading entomologists in the State and an authority on boll weevils. The meeting will take place in the district court room.

Following are the officers and committeemen named at last Saturday's meeting, and the pledge that will be circulated throughout Wilbarger county.

General
Diaz &
Colonel
Merwyn
Puckey.

General Armando Diaz, the greatest Italian hero since Garibaldi to visit America was acclaimed by thousands when he arrived in New York. The Italians of New York and vicinity made a holiday of it. Two ferryboats and a fleet of private yachts and tugs, packed to the guards with cheering sons and daughters of Italy, were waiting off Quarantine for General Diaz. A flag-waving crowd, conservatively estimated at 150,000, greeted him at the Battery and cheered his triumphal march up Broadway to City Hall, where Mayor Hylan conferred the freedom of the city. The photograph shows the procession moving up Broadway, and General Diaz and Colonel Puckey, who was appointed by the Secretary of War to act as his personal aide.

I hereby agree to join hands with my neighbors in fighting the boll weevil in my community. In so far as possible, I agree to do the following:

1. To uproot, pile and burn stalks.
2. To plow under all cotton land when possible.
3. To turn stock on cotton fields and allow them to eat all late bolls leaves and green stems.
4. To burn all fence rows and places where the weevil can get winter cover.
5. To cut and burn all weeds, and sunflowers in which the weevil spends the winter.
6. To get my neighbors to fight the boll weevil.

Be Steady--but!

It's alright to be steady, but if you are too steady you'll be standing still. It pays to circulate a little—you have to keep a-moving.

Also it is a pretty good plan to keep your money moving—keep it in circulation. If a merchant buys a lot of goods and just puts them on the shelf and leaves them there he won't make much. It's the goods that move that bring the profits. Your money is the same way. Make it move. Keep it turning. Put it in the bank where it can earn you something and keep it turning.

STERS HERALD BETTER SPEECH

GRADE SCHOOL PUPILS COMPETE FOR MOST ARTISTIC SPECIMENS

Better English Week, a nation-wide movement, will be observed November 15 and will be appropriately commemorated in Vernon, according to E. L. Peay, city superintendent of schools. In many communities the observance will not be confined merely to schools, although this will be the case in Vernon.

Three prizes have been offered by the superintendent Dohoney to the children of the grade schools submitting the best posters announcing Better English Week. Pupils competing were entered in the third to seventh grades. Each school has selected the best posters from their respective students, and these have been forwarded to the high school where they will be judged by teachers in the English department. Reproductions of well-known pictures will be given as prizes. Some of the posters already submitted are of high merit.

OKLAHOMA TEAM TO PLAY HERE FRIDAY

MOUNTAIN VIEW HIGH SCHOOL WILL FURNISH ARMISTICE DAY CONTEST.

Vernon high school's football team will clash Friday, November 11, in an Armistice Day contest with the team from Mountain View, Oklahoma. The game is expected to be unusually close inasmuch as Mountain View was defeated earlier in the season by Chickasha 54 to 0, while the latter humbled Vernon 64 to 0.

According to information furnished the Vernon coach by the Chickasha players, Mountain View possesses about the same weight as Vernon but has some exceptionally fast men. Vernon and Mountain View were considered by Chickasha as being about on a par. The game will commence at 3:30, and due to the occasion being a holiday, a large crowd is expected. Vernon's attendance, it has been pointed out, is far below that of many Texas communities in the matter of supporting their respective aggregations on the gridiron.

GOOD PUREBRED BULLS IMPROVE HERDS QUICKLY

With purebred bulls a breeder achieves more in the improvement of his herd in two generations than he can in five with grade bulls, says the United States Department of Agriculture. Department workers have thoroughly studied the subject of building up herds to better milk, butter, and beef production. Better sires may be obtained either by individual purchase or by becoming a member of a bull association. Literature on the latter method can be obtained by writing to the department, and will furnish useful reading during the winter. Full information can also be obtained by consulting your county agent or State agricultural college.

MAN SHOT AND HIS WIFE BEATEN BY MEXICAN SUNDAY

Mr. and Mrs. J. A. Rudder, living south of town, narrowly escape death at hands of enraged assailant—No trace of Mexican found—Posse scour surrounding country.

J. A. Rudder, living about twelve miles south of town, was shot through the right arm and side and in the head as well, and his wife severely beaten over the head and on the hands by a Mexican youth named Chaste who visited their home about noon Sunday. Both were in a serious condition when brought to Vernon late Sunday, but are much better today. Several shots were fired at D. Massie, a son of Mrs. Rudder, but he escaped uninjured.

A posse was immediately organized, and combed the surrounding country for the assailant, but up to noon today he had not been captured. The extremely rough terrain makes a man hunt exceedingly difficult, and additional caution is being exercised by those in the pursuit inasmuch as the Mexican is armed with a 20-25 Winchester rifle and a revolver.

Dispute Over Debt.

The attack occasioned through dispute over a debt, occurred Sunday after the Mexican had concealed himself in the house while Mr. and Mrs. Rudder were busy attending to chores in the yard. According to the story told by Mr. Rudder, his wife started back into the house while he went on some errand about the place.

When Mrs. Rudder attempted to open the door, it was held by someone from within, and then suddenly jerked ajar. As she half fell into the room she was struck over the head by a two-pound hammer in the hands of the Mexican who had concealed himself behind the door. The stricken woman threw up her hands to ward off more impending blows, and as a consequence the thumb on her left hand was broken, and her fingers battered to a pulp. She has four terrible, jagged wounds on the top of her head.

Shoots Rescuer.

Upon hearing his wife's cries, Mr. Rudder started for the house and before he reached the door the Mexican suddenly appeared and aimed the gun at his breast. The farmer whirled and received the shot in his arm and it passed through into his side. Another shot entered the back of his head.

It was at this juncture that D. Massie, a son of Mrs. Rudder, appeared on the scene after having been in Vernon during the morning. In the meantime Mr. Rudder had slipped behind a door in the room where his wife lay stricken, and continued to out-manoeuvre the Mexican who was evidently bent on destruction.

Commanded To Tie Wounded Man.

Young Massie was commanded to tie his stepfather securely in order that the gunman might shoot him with more certainty. When the youth, who is about 20 years old, demurred he was informed that "not a damn soul will be left alive." He continued to edge across the room toward his stepfather who instructed him to break for the door and summon help.

With a bound Massie was out in the open and running in the direction of some hunters he had met when coming to the house. The Mexican gave pursuit and is said to have fired two shots at the fleeing boy. He then returned to the house but Mr. Rudder had barricaded himself, his wife, and 15 year old stepson in one of the rooms.

Hunters To Rescue.

Meanwhile Leonard George and W. T. Butler of Vernon, who had been hunting nearby were summoned by young Massie who informed them that a Mexican was "killing Ma and Pa." The two nimrods advanced upon the house but were evidently sighted by the Mexican who suddenly vanished.

Mr. and Mrs. Rudder and son were induced to admit the rescuers, and word was immediately sent to Vernon for medical assistance and officers. A posse was then organized and, armed with a variety of weapons and on horseback and afoot, nearly 400 men commenced a search of the country. The Mexican was never sighted.

Were On Outing.

STOWAWAYS BY THE SCORE DEPORTED

The good ship Celtic, which recently docked in Boston, seemed to have been a haven for stowaways. On that trip no less than a score of passengers not on the manifest found the sailing and the fare to their taste. When they reached port, however, the Federal authorities barred their entrance, and they were ordered deported. The photo shows the stowaways, guarded, just before they were deported from Boston to their home port.

SCHOOL LEAGUE SCHEDULE MADE

COMMITTEE SETS DATES AND PLACES FOR FINALS IN COUNTY CONTESTS.

The executive committee of the Wilbarger County Interscholastic League met Saturday and scheduled times and places for the final contests during the coming year. These will all be conducted in Vernon.

Finals in basketball, it is announced, will be held not later than February 4. Finals in debate, declamation, essay writing, and spelling will be conducted March 25. The county track and field meet will take place April 1. Details concerning each contest will be announced by the respective directors.

County Directors.

Entries to the various county contests are made to the following: Athletic—J. A. Morrow, Vernon; Debate—J. M. Horne, Tolbert; Declamation—Miss Thelma Smith, Harrold; Essay writing—Miss Vera Flack, Vernon; Spelling—W. W. Smootgrass, Vernon. J. N. Fulcher, principal of the high school, is director-general of this county.

Schools desiring to participate in the interscholastic contests must send membership fees at once to E. D. Shaurter at Austin. From this source they can be provided with spelling lists, rules, and other literature.

ilies in company with Jack Ellis and family Sunday when the shooting occurred. Mr. George owns the farm upon which Rudder lives.

Before reaching the picnic grounds, Mr. George and Mr. Butler, alighted from the truck and cut across the pasture in search of game while their families proceeded to the destination. D. Massie was met coming across the field toward his home.

About fifteen minutes later, according to Mr. George, he and his companion heard the shouts of the boy who came running to them and begging for a gun. The party immediately hurried to the house and found the stricken couple as related before.

Controversy Over Crop.

According to Mr. Rudder, the Mexican worked a cotton crop on halves with him this season and in addition, owed him \$100. The entire yield was two bales, and the Mexican demanded payment. When reminded of his debt he refused to be pacified, and went to work for a neighboring farmer, returning at intervals to contest the issue with his former employer.

According to Rudder, his Winchester disappeared from his home last Tuesday, and it was this weapon with which he was shot. His revolver was taken Sunday before the attack occurred.

Chaste is described as being about 20 years old, smooth shaven, short, a sore resembling a cancer under his left eye, and speaks very broken English.

FIGHTERS ARRANGE VARIED PROGRAM FOR ARMISTICE DAY

Orrosion To Be Elaborately Observed in Vernon—Meeting On Court House Square In Morning and United Church Services—Two Minute Universal Prayer—Athletic Program and Dance.

Every ex-soldier, sailor, or marine in Wilbarger county and from other localities as well is invited to be in Vernon Friday, November 11, for the observance of Armistice Day. At 11 a. m. the former fighters will assemble on the west side of the court house, and there will be band music and speaking. Civilian clothes will be in perfect order, those in charge of the program have announced.

No one is barred, on the basis of term of service, it has been announced. It is merely hoped to fittingly observe the occasion in keeping with the proclamation of the President of the United States. At 11:30 the memorial services of the day will be held at the Baptist tabernacle. Vernon churches will unite in staging this observance.

Two Minute Prayer

At 12 o'clock noon the fire siren will sound one shrill blast and persons everywhere are expected to stand in meditation and prayer for two minutes. Men will remove their hats, and all faces will be turned towards the East. At the expiration of two minutes bugles will sound "attention." This procedure will also be observed nationally. The services at the tabernacle will be concluded with the buglers sounding taps.

The nation's unknown warrior will be laid to rest in Arlington cemetery at 12 o'clock noon Friday. This ceremony will be attended by the highest dignitaries of the country.

Stores To Close.

All businesses with exception of drug stores and cafes, it is announced will be closed in Vernon Friday. In the afternoon at the ERS Club a smoker will be conducted for all ex-service men. There will be a battle royal between ducky fighters, and wrestling and boxing bouts of merit.

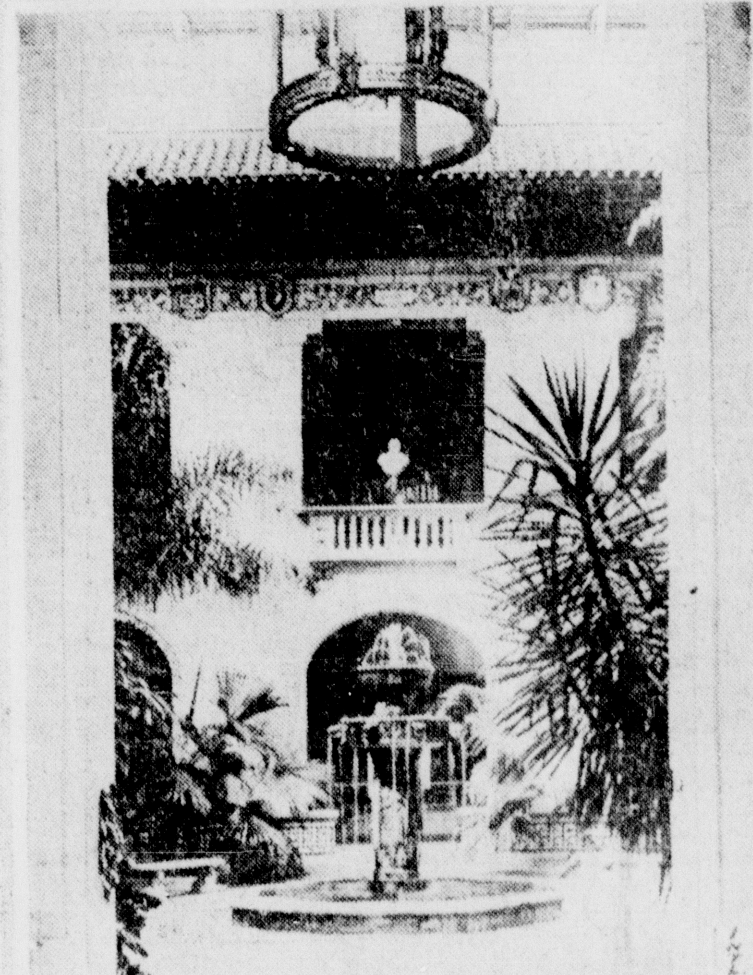

In the evening there will be a ball for the ex-soldiers, sailors, and marines. A nominal charge of one dollar per couple will be made, the proceeds going toward equipping club and library rooms for former service men.

All buglers are requested to furnish their services during the morning Friday. Instruments will be furnished to those who do not possess them.

Dallas Sales Price Is Regular Here.

In an advertisement carried in the Dallas News of Sunday is the announcement from a firm in that city that a certain line of shoes are being offered at sale for \$13.50. This is heralded as providing a saving of \$2 to \$4. It is significant that the same shoes have been offered for sale in Vernon several months at \$13.50, regular price.

REV. W. T. ROUSE TO RESIGN FEB. 1

BAPTIST MINISTER ANNOUNCES RETIREMENT FROM PULPIT LAST SUNDAY

Rev. W. T. Rouse, Baptist minister, will resign from his pulpit here February 1, 1922, according to an announcement made Sunday to his congregation. Mr. Rouse has been in Vernon since June 1, 1917, coming here from Memphis. He is uncertain concerning plans after February 1.

Mr. Rouse has taken a prominent part in local church circles since coming here, and has been chairman of the Vernon Pastors' Conference for two years. During its ministration here have been 501 additions to the church, he has married 118 couples, and officiated at 114 funerals.

J. O. Rouse of the Vernon Abstract Co. is a brother of Rev. W. T. Rouse, and T. L. Rouse, editor of the Vernon Times, is a son.

STUDENTS HOLD PEP MEETING.

Cheers And Songs Resound In Business District Of Vernon Friday Afternoon.

High school students conducted a "pep" meeting Friday afternoon after the movement had been sponsored by the local Lions' Club. Four members of this organization received the sanction of Superintendent E. L. Dohoney in their attempt to instill into the student body enthusiasm for the football game with Memphis Saturday, and accordingly every pupil was enlisted in a parade which formed about 3:30 in the afternoon at the building.

Cheers and songs featured the meetings on three downtown corners, and there was a snake dance down Main street. The students then disbanded at the square.

The Lions' Club is endeavoring to assist the high school athletic department in having larger crowds at the football games.

Pie Supper At White City Pays.

Fifty dollars were realized Friday night from the pie supper given at White City. Proceeds were devoted to tuning the piano at the school and purchasing athletic equipment. Following the supper a literary society was organized with Miss Mary Anna Covert president and Miss Beatrice Hughes secretary. Mrs. Luther White offered a very pleasing piano solo for the musical part of the program Friday.

Armistice Day Services Friday.

Armistice Day services will be conducted Friday, November 11, at the Baptist Church by all of the churches in the city in joint session, according to a decision reached last week-end by the Vernon Pastors' Association. These will commence at 11:30 in the morning and last but a short while. A program committee was organized to arrange details for the services.

FARMERS DISPLAY INTEREST TOWARD WEEVIL MENACE

Court Room Well Filled Saturday By Audience Which Sees Evidence of Pest Clearly Placed Before It—Talks Made by Those Possessing Experience—Meeting Scheduled For Saturday.

Much interest was manifested Saturday at a meeting conducted by farmers in the district court room for the purpose of discussing means of combatting the boll weevil, and a permanent organization was effected to wage battle against the pest. A. M. Hatt was made president, T. H. Shive secretary, and together with three others, J. H. Pettit, Lon Ryars, and J. T. Oates, form a central committee.

The court room was more than half filled with farmers, and before the meeting was called to order those present made a close examination of the boll weevil placed on the court room table. The pest ranged in size from the grub to the full grown insect, and removed all doubt concerning the discussion as to whether or not the weevil actually existed in Wilbarger county.

Weevil Destroyed Crop.

A farmer, Mr. Hardage, was called upon for the first account of his experiences with the boll weevil. He informed the audience that he lived in Indian territory during 1904, '05, and '06, and that prior to the coming of the weevil cotton averaged one-half to one and one-quarter bales to the acre. The weevil was first noticed in 1904. Soon thereafter production dropped to an average of seven bales to thirty acres, and later to one bale. Finally there was no cotton left to gather.

A cleanup campaign was then inaugurated by the Farmers' Union, burning out every fence corner and all places where trash had accumulated was carried out, and in 1907, a wet year, the pest was not noticed. In 1908, another wet year, there were no weevils, and it finally disappeared.

Cleanup Campaign Helped.

F. H. Littleton, living west of town, followed Mr. Hardage with a graphic account of the depredations committed by the cotton destroyer. Littleton declared that he possesses seven or eight years experience with the pest, and that he first encountered its threats in Ellis county. A vigorous cleanup campaign there accomplished much good, he stated, and stock was put into the fields to graze.

In Denton county, where Mr. Littleton later moved, the cotton crop was a complete failure. Land in that vicinity is heavily timbered and as a consequence it is practically impossible to successfully attack the weevil.

Continuous dragging of cotton fields was advocated as a preventive measure by Mr. Littleton. Such a process in the summer, he asserted, causes the squares, which are breeding places for the weevil, to drop off and the hot sun kills the larvae. The best time to fight the weevil is at the present time, Mr. Littleton said in closing.

Weevils In Trash Heap.

J. C. Adams of Hood county, at present employed at the Farmers Gin in Vernon, was the next speaker. Mr. Adams exhibited a bottle of weevils he had gathered from the trash pile at the gin which he characterized as "being alive with them."

"Persons say, 'Do you think we have weevils in Wilbarger county?'" said Mr. Adams, "and I say there is no think to it. I know we have. They ate me out of my farm forty miles west of Fort Worth, and I am certain concerning their identity."

Destroys Entire Crop.

"Years ago there were eighteen gins in our county, and their output each season was about 30,000 bales. Now there are three gins which handle less than 1,000 bales a year. Last year I did not gather a scrap of cotton from 100 acres, this year I got about 1,000 pounds of lint from the same land."

"To those persons who do not believe we have them here, I want to say that they are traveling over the trash pile at the gin like ants in a hill. But they are not hard to fight in this country because there is no timber. The weevil does his work in wet weather."

"We believe all have noticed the tremendous number of people coming through here this year by wagon train."

COUNTY CHAIRMAN
ISSUES WARNING

L. G. HAWKINS SEES DANGER IN
BUYING SEED FROM UNKNOWN SOURCES.

Warning farmers against buying cotton seed from unauthentic sources was sent out today by L. G. Hawkins, county chairman of the United Campaign for Better Agriculture. The discovery of the pink boll worm in Ellis county near Ennis last week was the cause of Mr. Hawkins' warning.
"Cotton seed for planting purposes is being sold in Wilbarger county by agents from no one knows where," Mr. Hawkins stated. "Unless one knows absolutely where this cotton seed comes from, it is risky business to buy it."

Thirteen Counties Infected.

"I see in the Dallas News of last Sunday that the pink boll worm has been found in Ellis county. Seed in that vicinity was shipped to oil mills in Ellis county from New Mexico. There are thirteen counties in Texas which are infested with pink boll worms. The boll weevil has ruined the cotton crop of most of East and Central Texas."

As a result the cotton oil mills in that section are having to ship in seed from anywhere they can get it. It is possible that cotton seed from infested areas may be shipped to oil mills in many other counties."

Worm Is Distinctive.

The pink boll worm is entirely different from the boll weevil. The first is a worm which is carried in the seed. The weevil is an insect which punctures squares and bolls. Not being a finched country, we can control the boll weevil by plowing the stalks under, or uprooting and burning them, burning fence rows, burning trash, or by pasturing cotton fields.

The pink boll worm is a different thing. It eats in bolls, squares, leaves and seed. It often damages a crop 70 per cent. Be careful that you do not buy pink boll worm."

Today—May McAvoy in "A Private Scandal."

May McAvoy takes the part of a French orphan who is adopted into the family of Philip Lawton, a wealthy man. Through love of his thoroughbred he neglects his wife, which permits a family friend to usurp the husband's place in her affections. Jeanne develops a romance with Jerry Hayes, the stable manager. But clouds smother the sunshine because it is her duty to protect the wife and take the responsibility. The picture develops several novel twists and carries considerable dramatic force.

Wednesday and Thursday—Conway Tearle in "Bucking the Tiger"

The interest centers around Ritchie MacDonald, the role assumed by Tearle, who has reached the "end of his rope." He and his four companions, Graham, Billy, Walsh and the Count are in desperate straits and MacDonald suggests in order to raise \$100,000 one of them be insured for that amount, and when he dies at the end of a year, the rest can collect. They draw cards and MacDonald agrees to sacrifice his life.

The various means used to raise the money to pay the premium on the policy, a love affair that springs up between MacDonald and a girl of the camp, the kidnapping of the girl in a blinding snow storm, and the unusual turn of affairs before the year has ended, are but a few of the high points of this interesting story. It is replete with action and suspense and contains much excellent photography.

LOCAL HIGH SCHOOL STAGES PAGEANT

PROGRAM THURSDAY WILL COM-MEMORATE FIRST ANGLO-SAXON SETTLEMENT

A pageant commemorating the first Anglo-Saxon settlement in Texas in 1821 by Stephen F. Austin will be staged in the Vernon high school auditorium Thursday night, November 10. The program will commence at 7:45. Proceeds from the sale of tickets will be used to provide every school in town with a library.

Admission will be twenty-five cents for children and fifty cents for adults. Tickets will be given to the various parent-teacher associations in the city, and each organization will be permitted to keep the funds resulting from their respective sales.

Fostered by Rotary.

The pageant that will be presented represents a movement being fostered by the Rotary clubs of the state to commemorate the centennial of the first white settlement in Texas. The title of the pageant is "Texas Under Six Flags," and it has been compiled by Edwin R. Bentley. There are six episodes and a grand finale.

The stage in the auditorium has been enlarged, and appropriate costumes obtained for the cast. Professor Paul Goetze's orchestra will play during the performance, and the high school chorus will sing.

The episodes presented will be the following: (1) French Discovery and Possession; (2) Spanish Exploration and Mission Building; (3) Mexican Reign; (4) Colonization by Stephen F. Austin and (5) The Texas Revolution; (6) Republic of Texas; (7) Under the Confederacy; (8) Under the United States.

The cast in the pageant embodies more than 125 persons. The more important parts will be taken as follows:

La Salle—Maurice Trout; Stephen F. Austin—George Coltz; Sam Houston—Elton Cook; Santa Anna—Walter McElroy; Texas—Miss Hazel Vaughn; Liberty—Miss Opal Williams; Justice—Miss Frances Greener; Immortality—Miss Mary Hope Westbrook; Uncle Sam—Preston McCombs.

WILL BACK HEALTH CRUSADE.

Shive School Parent-Teachers Association To Assist State Worker Here.

No program was rendered Friday at a meeting of the Shive School Parent-Teachers Association on account of other business before the organization. The resignation of Mrs. L. E. Piper as treasurer was accepted, and Mrs. C. S. Hurdle elected to the office. A committee consisting of Mesdames Della Housels, F. E. Murchison, J. E. Lutz, and Miss Floy Tacker was appointed to draft a constitution and by-laws.

A partial report from the finance committee stated that thirty-five dollars have been collected toward the library fund, and about fifteen more are promised. A communication from Miss Pearl Hyer, field worker for the Texas Public Health Association, was read in which co-operation was asked for the staging of a modern health crusade in the public schools of Vernon. This co-operation was unanimously granted, and Miss Sheila Porter and Mrs. Raleigh Hooper were appointed assistants to Miss Hyer in conducting the work here.

Members of the association are requested to watch for the date and place for the next meeting as business of especial importance will be transacted then.

Red Cross To Stage Drive.

The same councilmen in Wilbarger county who serve for the newly organized Wilbarger County Welfare Association will also be asked to serve in the same capacity for the Red Cross. The Red Cross will stage a drive for members and funds in conjunction with the Association campaign November 11 to 24. Practically every cent raised this year will be kept in this county for the public health nurse or any charity work deemed worthy. Mrs. Bertha Ross is Roll Call Director of Wilbarger county.

Wins Awards At Cotton Palace.

DEMENTED MAN LOSES LIFE

Victim of Railroad Train At Memphis Believed To Have Been Vernon Prisoner.

An account carried in a State paper last Sunday announced the death at Memphis of a man who is said to have jumped in front of a moving train. A description of the unfortunate victim and communication with officers at Memphis has convinced county officials that the man was H. Schwartz, demented, and arrested here October 23.

Schwartz was detained here for some time while efforts were made to place him in a State asylum for the insane. Due to crowded conditions, however, this opportunity was denied and a communication from the man's relatives indicated that he was at the county's disposal. Accordingly, unable to place the man anywhere for permanent detention, county officials last week released him.

When arrested here absolutely naked, Schwartz asserted his wife is a stenographer at Bryan.

MUNICIPAL ELECTRICITY

The proposal of Vernon's city com-
 mission to enlarge its light plant and
 to add equipment for making ice, so
 that the community and surrounding
 territory may be served from a munici-
 pal plant seems to strike a popular
 chord. Undoubtedly, in the minds of
 many this would be a wise move.

Municipal ownership of public util-
 ities is a question as old as modern
 government. Economists long claimed
 that public ownership and operation of
 those enterprises which were complica-
 ted in operation—such as street rail-
 ways, for example—offered obstacles
 much greater than are afforded by the
 operation of water and electric light
 plants. The distribution of these is a
 relatively simple matter.

Vernon has been making electricity
 for its own use for some time, appar-
 ently at a profit. It is claimed that
 the water works yields the municipality
 a profit. There seems reason to infer,
 then, that electricity might be supplied
 the entire community at a saving to the
 consumer or a profit to the city, or
 both.

Nor are there any outstanding ob-
 stacles apparent in the way of the man-
 ufacture of ice at a price that will
 meet with public approval.

VERNON AN INDIAN VILLAGE?

Despite the fact that Vernon has
 more street paving, a better water
 supply, and more attractive lawns than
 any other municipality of like size in
 the entire Southwest, in at least one
 particular Vernon strangely resembles
 the Indian village which one might
 have found on these prairies half a
 century ago. The town is over-run
 with dogs.

Canine of every size and description
 may be found—from the almost micro-
 scopic variety of lap dog to the bound-
 ing airside. Some of the animals are
 valuable, and some are doubtless only
 a fad.

While the dog is "man's best friend,"
 there are undoubtedly too many of
 them roving the streets of Vernon. It
 is not at all likely now that an epi-
 demic of hydrophobia will infect them
 —not before warm weather again—but
 should such be the case it would be-
 come very serious.

Wherever dogs are kept for a pur-
 pose they are worth while. They seem
 likely, however, to become a public
 nuisance in Vernon.

GET THE HABIT, PLEASE

Children are taught to say "please,"
 "thank you" and "you are welcome,"
 but when they get older they shake off
 the traces of their early youth and for-
 get these phrases of fundamental po-
 liteness.

Many catches have been spoken
 for not saying "please," "thank you,"
 "you are welcome," but the pleasure of
 saying these things because they were
 taught and refused to say "please" when they

knew that that would bring the desired
 object to them.

In our hurry and rush through life
 we forget, some of us all the time, most
 of us some of the time, to be polite and
 gentlemanly. To say "please" requires
 but a moment, but what a pleasure it
 lends to the transaction! It makes hu-
 manity less harsh and brutal. The
 energy required and friendliness is
 trivial, really negligible. All that is
 necessary is the habit.

Get the habit and make the world a
 little less sharp. Say please. It'll
 please the world and please you.—The
 University Missourian.

BANKS ARE ADVERTISING

Fort Worth banks are spending
 money individually in institutional ad-
 vertising and in addition are co-operat-
 ing in the expenditure of \$12,000 for a
 year in a joint advertising of functions
 that a bank may perform for an indi-
 vidual and for a community as a whole.
 Time was when a bank to advertise
 would have brought on as big a shock
 as for a doctor to use display space
 to tell of himself; it was unethical or
 regarded so. But the time, happily, is
 past, and they are now bringing them-
 selves and their functions before the
 public thru real advertising.

Bankers know their business and are
 prone to think the fundamentals of it
 are perfectly understood by others—an
 idea that is rather general among most
 professionals. But the modern banks
 are functioning in many ways that
 would be of advantage to the general
 public and to the banks as well, if the
 general public understood them; and
 that is what the bankers of this day
 and time are doing in the use of mer-
 chandising methods that they should
 be so committed but because their suc-
 cess is indissolubly bound in the wel-
 fare and growth of their territories.

And in passing, it might be well to
 suggest that the banks would be able
 to do much more than they are able
 to do if every dollar in the community
 were put into the banks where it would
 work in the rebuilding of that com-
 munity's business and general prosper-
 ity. The unbanked dollar, the hoarded
 dollar, is not worth much to the com-
 munity; the dollar in the bank is equiv-
 alent to five dollars in the credit of

the community.—The Denton Record-
 Herald.

ONE REASON FOR FIGHTING

One very important reason for fight-
 ing the boll weevil is the effect an
 invasion of the pest would have on
 property values. Certainly the loss of
 a cotton crop would be burden enough
 —even if the insect might be curbed
 and reasonably good yields secured in
 future years. And this is possible.

But let it once be known that Wil-
 barger county had become infested with
 the boll weevil, and farmers wanting

to invest their savings either in a home
 or with an idea of selling at a profit
 some time later would avoid this sec-
 tion as a plague spot.

A yield this year, in many cases of
 more than a bale to an acre, will stamp
 Wilbarger county as an especially fa-
 vored agricultural section. It will be
 made known practically all over Texas,
 and will tend to attract thither a
 multitude of home-seekers.

All of this means increased land
 values, more farmers, a more prosper-
 ous community. For these reasons we
 must fight back the boll weevil. To be
 effective the fight should be started
 today.

Marshal Foch, Generalissimo of the Allied Armies, upon his arrival in New York received a welcome such as has not been experienced since the Armistice Days of 1918. The thunderous din in the harbor, along the waterfront and along the line of march of the famed old fighter never has been equalled. Cannon on Governor's Island boomed out a deafening salute, trans-Atlantic steamships vied with tugs and ferryboats with ear-splitting blasts of their sirens, and hundreds of ever and harbor craft of every description sent out a shrill ovation that added to the gigantic roar. The city, State and Nation formally greeted the celebrated Marshal when he stepped foot on American shores. The photograph shows Mayor Hylan shaking hands with Marshal Foch. On the right is Governor Miller and on the left Rodman Wanamaker.

The Story of
Our States

By JONATHAN BRACE

XV.—KENTUCKY

THE kinship
 of Ken-
 tucky and
 Virginia is
 that of par-
 ent and child.
 From Virginia
 came most of

the settlers of the western state,
 and with them these pioneers
 brought Virginia institutions
 and ideals. It was not until
 1750 that the first authentic
 journey was made by a white
 man into central parts of the
 region afterwards called Ken-
 tucky.

Further explorations showed
 that this territory held two im-
 portant attractions for settlers.
 The first was the great fertility
 of what was called the Blue
 Grass region. The so-called
 blue grass, from which this
 state is nicknamed the "Blue
 Grass State" is in no wise pe-
 culiar to Kentucky.

The second inducement for
 settlers was the fact that there
 were no Indians living in this
 region. It was later found that
 many roving bands of savages
 crossed the Ohio from the north
 and sorely harassed the early
 colonists until Clark's expedi-
 tions into Ohio and Indiana
 checked their invasions. In fact,
 the name Kentucky is probably
 derived from the Iroquois word
 kentka-ke, meaning "hunting
 land." Another interpretation
 is "dark and bloody ground,"
 but this is doubtless incorrect.

The main highways of travel
 at that time were Daniel
 Boone's "Wilderness Road"
 through Cumberland Gap and
 down the Ohio. Hardy pioneers
 poured into this new territory
 in such numbers that in 1792,
 with the permission of Virginia,
 Kentucky was admitted to the
 Union as the fifteenth state with
 an area of 40,598 square miles.
 Kentucky has thirteen electoral
 votes for president. The re-
 markable physical condition of
 its population is shown in a re-
 port of the volunteers in the
 Civil war. This gave their av-
 erage height as nearly an inch
 taller than the New England
 troops and with a correspond-
 ingly greater girth of chest.

VERNON SMOTHERS MEMPHIS 67 TO 0 IN GAME SATURDAY

Locals Are Able To Gain At Will Through Line and Around Ends—Visitors Threaten Only At Close of First Half—Coach Morrow's Line Holds Well—Small Makes 70-Yard Run.

Running the ends, plunging the line, forward passing, in short, utilizing practically every phase of open and straight football—Vernon swamped Memphis high school's representation here at the fair grounds Saturday 67 to 0. The visitors at no stage of the game possessed even a chance, and were hopelessly outclassed from the start. Although the locals performed in creditable style, their victory was gained over a team possessing little or no knowledge of even the fundamentals of the game.

Vernon's backfield gained practically at will, Small, Hollar, and Bramblett uniting in long end runs that completely circled the Memphis ends. Apparently gaining confidence through their obvious superiority over the visitors, the backs also ran better interference than any seen in previous games here this season. Several beautiful runs were made by the Vernon ball carriers, one by Bramblett in the third quarter, when he whirled off several Memphis tacklers for a touchdown, featuring Small made a touchdown after intercepting a pass on his own 30-yard line.

Line Holds Well.

Vernon's line was practically impenetrable. Time and again the visiting backs crumpled in their smashing attacks before the sturdy resistance of the local forwards. Robinson, Morris and Baird showed to particular advantage in the line.

On the whole, however, Vernon's tackling was extremely ragged. Two and three players were required to stop a majority of the opposing runners, and there was an abundance of high tackling and even clean misses. Memphis employed a short forward pass over the line to excellent advantage, and Vernon was practically powerless to thwart this style of attack. C. Lemons, visiting captain and full back, received an injury soon after the game commenced that forced him to retire. His loss clearly added to the demoralization of his teammates.

First Quarter.

At 3:30 Memphis kicked off, a short roller to Thompson. Vernon attempted two line bucks unsuccessfully, and Small passed to Bramblett which was narrowly missed. Bramblett made fifteen yards around right end, and on the next play Vernon was penalized five yards for offside.

Small kicked off ten yards around left end, and Bramblett made eight more a few moments later around the other wing.

Time was taken out for the Memphis captain, Lemons, who left the game.

Vernon was on the ten yard line. Parr made a good gain through the line, and Hollar carried the ball over. Bramblett kicked goal. Score: Vernon 7—Memphis 0.

Vernon Blocks Punts.

Parr kicked off to the 10-yard line. Vernon was penalized five yards for offside. Memphis made eight yards around right end. Vernon blocked a punt but Memphis recovered. Vernon

blocked another punt but this time gained possession of the ball. It was the locals' ball on the 30-yard line.

Small made 20 yards around left end. Parr smashed through for a touchdown. Bramblett kicked goal.

Score: Vernon 14—Memphis 0.

Parr kicked off to the 12-yard line, but the ball was returned 20 yards. Vernon players tackling poorly. Local forwards smeared several line plunges in quick succession. It was Vernon's ball on downs.

Vernon was offside, and also suffered a 15 yard penalty for holding. Small made a good pass to Hollar who caught the ball but dropped it when tackled. The first quarter ended before the play was commenced.

Score: Vernon 14—Memphis 0.

Second Quarter.

Parr kicked to the goal line, the ball bounding past the visiting safeties. Memphis kicked from behind the line to the 20-yard line. Bramblett circled right end for 15 yards. Small went over for a touchdown. Bramblett kicked goal.

Score: Vernon 21—Memphis 0.

Parr kicked off to the 15-yard line. Memphis punted to Bramblett who returned 30 yards. A pass, Bramblett to Hollar, netted 20 yards. Small sped around left end behind good interference for another touchdown. Bramblett kicked goal.

Score: Vernon 28—Memphis 0.

Receivers Onside Kick.

Parr kicked a short one about 18 yards and Baird recovered it. Bramblett shot around right end for 20 yards, performing some good open field punning. Vernon opened a battering line attack that sent Hollar over for a touchdown. Bramblett kicked goal.

Score: Vernon 35—Memphis 0.

Hollar kicked off to the 15-yard line. Memphis completed a short forward pass. A line attack failed. Memphis executed a forward pass from a spread play that netted 30 yards. A moment later Hollar interfered with a Memphis receiver on a forward pass, and the ball was given to Memphis on the line where the foul occurred. It was the first time Memphis even threatened the local goal. The whistle blew for the first half with Memphis in possession of the ball on Vernon's 5-yard line.

Score: Vernon 35—Memphis 0.

Vernon students executed a snake dance on the field between halves.

Second Half.

Parr kicked to the 3-yard line. Memphis opened up an aerial attack which failed and the ball went over on downs. Small completed a pretty pass to Bourland who dropped the ball with no one between him and the goal line. Bramblett flipped a 25-yard pass to Hollar who made a beautiful catch. It was Vernon's ball on the 3-yard line. Small went over for an apparent touchdown. The play was not allowed, however, on the basis that the ball was not over

the line, and it went over to the other team on downs.

Memphis punted and the kick was blocked. Vernon recovered on the 5-yard line. Bramblett executed a pretty run around right end for a touchdown, whirling off opposing tacklers. Bramblett kicked goal.

Score: Vernon 42—Memphis 0.

Parr kicked off 20 yards. Small intercepted a pass after a few plays and raced 70 yards down the sidelines for a touchdown. Bramblett kicked goal.

Score: Vernon 49—Memphis 0.

Memphis Passes Effective.

Parr kicked off 40 yards. Memphis executed a pass over the line for the seventh consecutive time and first down. Small intercepted a pass and returned the ball 20 yards. The third quarter ended with the ball on Memphis' 35-yard line.

At the opening of the fourth quarter, Small passed 20 yards to Hollar.

Vernon lost the ball on downs, the Memphis line showing a surprising resistance. Memphis kicked low to Hollar. Bramblett tossed the ball 15 yards to Small who went over for a touchdown. Bramblett missed goal.

Score: Vernon 55—Memphis 0.

Baird kicked off to the 10-yard line. Memphis lost the ball on downs. Small made 20 yards around left end. With one minute to play, Vernon had the goal line to make in ten yards. Vernon was penalized 5 yards for offside. Memphis intercepted a pass on its 1-yard line. Memphis punted to Hollar who made a good return. Small raced around left end for a touchdown. Baird missed goal.

Score: Vernon 61—Memphis 0.

Score In Closing Seconds.

With only seconds of the game remaining, Baird kicked to the 10-yard line. Memphis lost the ball on downs. It was Vernon's ball on the 40-yard line. Bramblett flipped a pass to

Small for 30 yards, and the fleet Vernon captain negotiated the remaining distance for a touchdown. Baird missed goal.

Score: Vernon 67—Memphis 0.

Baird kicked off to the 15-yard line. Memphis advanced the ball to its own 40-yard line and the game was over.

A shirt tail parade down Main street in the evening celebrated the victory for Vernon students.

PREMIUM LIST FOR POULTRY RAISERS

BOOK SOON TO BE DISTRIBUTED
OVER COUNTY BY NEW
ORGANIZATION

An attractive premium list will be circulated in the near future by the Willbarger County Poultry Association among all parties who are prospective exhibitors at the poultry show here in January, according to an announcement of the secretary of the organization. This book will contain practical information to poultry raisers, and will also embody the name of every standard breeder in the county, his address, and the variety of chickens he raises. Brooders are expected to preserve this book from one year to another.

Merchants will be visited and solicited for advertising. More than 500 copies of the premium list will be judiciously distributed.

Working Over County.

H. D. Hockersmith, secretary of the Association is visiting "halls" clubs over the county for the purpose of stimulating interest. He is being ably assisted in this work by the county home demonstration agent.

Details of the chicken show are being worked out, and careful plans are being laid to make it the best exhibit ever staged in this county.

Those sponsoring the show are exerting every effort to stimulate an interest in an industry felt to be a permanent benefit to the county. There is no fund upon which to draw in order to meet the expenses of the show, and for that reason it must be self-sustaining.

Sales
People
Wanted

\$40,000 Stock of Dry Goods, Hats, Shoes, Clothing, Ladies' Ready-to-Wear

In fact everything carried in a General Dry Goods Store will be thrown on the market, absolutely regardless of price. In many instances at a fraction of cost to manufacture. This is Freeman Bros. and the Insurance Company's loss and your gain. We will have an abundance of help to wait on the immense crowds at this great sale

SALE STARTS TUESDAY MORNING, NOV. 8

at 9 O'clock and continues to Saturday, Nov. 26, providing the stock lasts that long

We have just succeeded in getting a settlement with the Insurance Company, which was very satisfactory and the people of this and surrounding counties are going to derive the benefit of all of it. This is a chance of a life time to many who have never attended a FIRE AND WATER SALE to buy all their winter needs before the present stock is exhausted.

YOU WILL HAVE TO HURRY! Do not put it off, or this opportunity will slip from you. We are expecting great crowds and eager buyers, coming at a time when no one hardly has bought their Fall and Winter needs. Merchandise will melt away like snow in the Summer time.

NOTHING RESERVED. OUR ENTIRE STOCK MUST GO
NO EXCHANGE, NO REFUNDS. All Sales MUST BE FINAL

for the reason we are making a tremendous sacrifice, and we want to take our loss and forget about it.

FARMERS DISPLAY INTEREST TOWARD WEEVIL MENACE

(Continued from Page 1)

Well, all those folks are from boll weevil country. They are eaten out of their homes."

Is Convinced Of Presence.

Ray R. Jones, county agent, who spoke next, remarked that there has been a question whether or not the boll weevil actually existed here. He stated that the evidence lay before the audience to examine at its pleasure. Personally he said, he is absolutely convinced that the specimens submitted are of the boll weevil.

"Whatever it is," said Mr. Jones, "we know it is eating the cotton. In the southwestern part of the county as well as in the forks of the river and other sections, the depredations of the insect can be clearly seen."

"I have seen the weevil at work in my native state, Georgia. I have seen fine sections wiped out. Concerning the question as to whether or not cold weather affects the pest, I may add that I once saw a boll weevil frozen in a block of ice and left there for twenty-four hours. At the expiration of that time when the ice had melted the weevil moved about and finally flew away."

"Cotton is practically out of the fields now, and this is the time to put up a fight."

Outlines Life Of Weevil.

Mr. Jones then gave an outline of the life of the weevil. It lays its eggs in the squares, he said, and before the cotton blooms, it lives on the plant. Only one egg is laid in each square, and it is estimated by scientists that the female weevil can lay 140 eggs. Its tremendous multiplication is thus clearly evident.

The leaves of the plant first turn yellow, said Mr. Jones, and then the weevil hatches into a worm. The worm eats out the square and then goes into the pupae stage from which it emerges a boll weevil. Fourteen days are required from the transformation of the egg to the weevil.

As the season progresses, the weevil lays its eggs in the bolls. It passes the winter in the adult stage and gets in cover to protect itself. When these places of refuge are destroyed, the weevil is destroyed at the same time.

Lives On Cotton.

The weevil eats a few other plants, but absolutely cannot be raised any other place than in the cotton field, the county agent pointed out. If trash and breeding places are eliminated, the weevil is destroyed as well.

Where possible, land should be turned under, and stalks should be cut while green. Stock pastured in the fields will eat the green stuff.

Mr. Jones concluded his remarks by stating that there is no reason why the weevil cannot do damage in this section. It has laid other localities here, he said, and can do likewise here. However, efforts to combat it in the fall are the most effective.

County Will Clean Up.

Mr. Jones informed the audience that the county judge had intimated that the commissioners will clean up the roads if the farmers will do the same to their fields. He added that each man should urge his neighbor to co-operate. Cleanup methods will benefit the man employing them, but they are far more worthy if everyone participates.

At the conclusion of Mr. Jones' talk various citizens of Vernon and farmers expressed their views on the situation. Some stalks raised in this county and from which bolls had been eaten off attracted considerable interest from those present.

Officers were then elected and committeemen appointed for every community in the county. Those committeemen will push the cleanup work in their respective districts.

Meeting Here Saturday.

A meeting has been called for all committeemen and farmers for Saturday afternoon, November 12, at 2 o'clock to hear an address from R. R. Reppert of College Station, considered one of the leading entomologists in the state and an authority on boll weevils. The meeting will take place in the district court room.

Following are the officers and committeemen named at last Saturday's meeting, and the pledge that will be circulated throughout Wilbarger county.

GENERAL DIAZ ARRIVES AMID THUNDEROUS DIN.

General
Diaz
Colonel
Mervyn
Buckley

General Armando Diaz, the greatest Italian hero since Garibaldi to visit America was acclaimed by thousands when he arrived in New York. The Italians of New York and vicinity made a holiday of it. Two ferryboats and a fleet of private yachts and tugs, packed to the guards with cheering sons and daughters of Italy, were waiting off Quarantine for General Diaz. A flag-waving crowd, conservatively estimated at 150,000, greeted him at the Battery and cheered his triumphal march up Broadway to City Hall, where Mayor Hylan conferred the freedom of the city. The photograph shows the procession moving up Broadway, and General Diaz and Colonel Buckley, who was appointed by the Secretary of War to act as his personal aide.

I hereby agree to join hands with my neighbors in fighting the boll weevil in my community. In so far as possible, I agree to do the following:

1. To uproot, pile and burn stalks.
2. To plow under all cotton land when possible.
3. To turn stock on cotton fields and allow them to eat all late bolls leaves and green stems.
4. To burn all fence rows and places where the weevil can get winter cover.
5. To cut and burn all weeds, and sunflowers in which the weevil spends the winter.
6. To get my neighbors to fight the boll weevil.

CHURCH PROGRAM COMPLETE

Dr. W. H. Wilson Gives Glowing Address Friday Evening On "The Country Church."

A complete program was rendered Friday at the Presbyterian Church here in the home mission conference conducted by prominent speakers of the Presbytery. Meetings were conducted in the afternoon and evening.

Dr. W. H. Wilson of New York spoke eloquently in the evening on "The Country Church." His address was one of the finest ever heard in Vernon.

At 6 p. m. the conference workers were entertained with a bountiful dinner at the home of Mr. and Mrs. A. B. Swartwood.

The Best None Too Good

"After many years of stomach suffering I have at last found a medicine for that trouble. But believe me it was a timely find. I couldn't have lasted a great while longer. My stomach would bloat with gas like a barrel and the colics got to be awful. Medicine didn't help much until I got hold of Mays' Wonderful Remedy, which did the trick. I am telling everyone about it." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

Be Steady--but!

It's alright to be steady, but if you are too steady you'll be standing still. It pays to circulate a little—you have to keep a-moving.

Also it is a pretty good plan to keep your money moving—keep it in circulation. If a merchant buys a lot of goods and just puts them on the shelf and leaves them there he won't make much. It's the goods that move that bring the profits. Your money is the same way. Make it move. Keep it turning. Put it in the bank where it can earn you something and keep it turning.

Makes Gift of Encyclopedias.

A set of six encyclopedias was presented recently to the Vernon public schools by Mrs. J. E. Lutz in acknowledgment of the effort being made to equip grade schools with libraries. The set was given to the Central school. An attempt is being made to put the grade schools of Vernon in a number one classification, and to accomplish this it is necessary to equip them with suitable reference books.

STERS HERALD BETTER SPEECH

GRADE SCHOOL PUPILS COMPETE FOR MOST ARTISTIC SPECIMENS

After English Week, a nation-wide event, will be observed November 12 and will be appropriately centered in Vernon, according to E. L. Doney, city superintendent of schools. In many communities the observance will not be confined merely to schools, although this will be the case in Vernon.

Three prizes have been offered by Superintendent Dohoney to the children of the grade schools submitting the best posters announcing Better English Week. Pupils competing were entered in the third to seventh grades. Each school has selected the best posters from their respective students, and these have been forwarded to the high school where they will be judged by teachers in the English department. Reproductions of well-known pictures will be given as prizes. Some of the posters already submitted are of high merit.

STERILIZE MILK VESSELS.

Milk will keep better and make better products if all pails, strainers, and separator parts are sterilized, says the United States Department of Agriculture. Use live steam for 5 minutes. You can not get live steam, boil all pails for at least 5 minutes. A steam sterilizer for dairy utensils, which can be made by a local tinsmith, is described in Farmers' Bulletin 748. "Simple Steam Sterilizer for Farm Dairy Utensils." The bulletin may be obtained on application to the department.

OKLAHOMA TEAM TO PLAY HERE FRIDAY

MOUNTAIN VIEW HIGH SCHOOL WILL FURNISH ARMISTICE DAY CONTEST.

Vernon high school's football team will clash Friday, November 11, in an Armistice Day contest with the team from Mountain View, Oklahoma. The game is expected to be unusually close inasmuch as Mountain View was defeated earlier in the season by Chickasha 54 to 0, while the latter humbled Vernon 54 to 0.

According to information furnished the Vernon coach by the Chickasha players, Mountain View possesses about the same weight as Vernon but has some exceptionally fast men. Vernon and Mountain View were considered by Chickasha as being about on a par.

The game will commence at 3:30, and due to the occasion being a holiday, a large crowd is expected. Vernon's attendance, it has been pointed out, is far below that of many Texas communities in the matter of supporting their respective aggregations on the gridiron.

GOOD PUREBRED BULLS IMPROVE HERDS QUICKLY

With purebred bulls a breeder achieves more in the improvement of his herd in two generations than he can in five with grade bulls, says the United States Department of Agriculture. Department workers have thoroughly studied the subject of building up herds to better milk, butter, and beef production. Better sires may be obtained either by individual purchase or by becoming a member of a bull association. Literature on the latter method can be obtained by writing to the department, and will furnish useful reading during the winter. Full information can also be obtained by consulting your county agent or State agricultural college.

WILL COMMAND WORLD'S

LARGEST PASSENGER SHIP.

The distinction of commanding the world's largest ship, the 56,000-ton Majestic, now nearing completion for the White Star Line, to ply between New York and Southampton, has been conferred on Sir Bertram Hayes, at present commander of the Olympic. Both ships are owned by an American concern, the International Mercantile Marine Company.

The Majestic was built by the Germans, to lead the merchant fleets of the world, and while still unfinished was turned over by them to the Reparations Commission, under the Versailles Treaty. She is 956 feet long, and her interior space is equal to that of 400 eight room suburban houses. Sir Bertram Hayes, a native of Birkenhead, is fifty seven years old and a bachelor. He has many friends in the United States.
